Notices are printed under arrangement with organisations having some potential interest in the subject land. You should contact the identified party for further details.

### **Electricity and Telecommunications Infrastructure - Building Restrictions and Statutory Easements (including those related to gas, water and sewage)**

#### Building restrictions

It is an offence under section 86 of the *Electricity Act 1996* to erect a building or structure within a prescribed distance of aerial or underground powerlines. In some, but not all, cases approval may be obtained from the Technical Regulator. Generally, however, land owners must not build, or alter a building or structure, with the result that any part of the resulting building or structure is within the minimum clearance distance required from certain types of powerlines. These building limitations are set out in the *Electricity (General) Regulations 2012* regulations 81 and 82. Purchasers intending to redevelop the property to be purchased should therefore be aware that the restrictions under the *Electricity Act* and *Regulations* may affect how, or if, they are able to redevelop the property.

In addition, if a building or structure is erected in proximity to a powerline of an electricity entity in contravention of the *Electricity Act*, the entity may seek a court order:

- a) requiring the person to take specified action to remove or modify the building or structure within a specified period;
- b) for compensation from the person for loss or damage suffered in consequence of the contravention; and/or
- c) for costs reasonably incurred by the entity in relocating the powerline or carrying out other work.

Contact the Office of the Technical Regulator in DEM on 8226 5500 for further details.

#### Statutory easements

Statutory easements for purposes such as (and without limitation) electricity, telecommunications, gas, water and sewage, may also exist, but may not be registered or defined on the title for the land.

Separate from the above building restrictions, South Australia's electricity supply and transmission businesses have statutory easements over land where part of the electricity distribution or transmission system was on, above or under the land as at particular dates specified by legislation.

This notice does not necessarily imply that any statutory or other easement exists.

However, where in existence, statutory easements may provide these organisations and businesses (identified in the relevant legislation) with the right of entry, at any reasonable time, to operate, repair, examine, replace, modify or maintain their equipment, to bring any vehicles or equipment on the land for these purposes, and to install, operate and carry out work on any pipelines, electricity or telecommunications cables or equipment that may be incorporated in, or attached to, their equipment (For example, see Clause 2 of Schedule 1 of the *Electricity Corporations (Restructuring and Disposal) Act 1999*, section 48A of the *Electricity Act 1996*).

For further clarification on these matters, please contact the relevant organisations or businesses, such as SA Power Networks' Easements Branch on telephone 8404 5897 or 8404 5894.

If you intend to excavate, develop or subdivide land, it is suggested that you first lodge a 'Dial Before you Dig' enquiry. Dial Before You Dig is a free referral service that provides information on the location of underground infrastructure. Using the Dial Before you Dig service (<https://1100.com.au>) may mitigate the risk of injury or expense resulting from inadvertent interference with, damage to, or requirement to relocate infrastructure.

#### ***Land Tax Act 1936 and Regulations thereunder***

Agents should note that the current owner will remain liable for any additional charge accruing due before the date of this certificate which may be assessed on the land and also that the purchaser is only protected in respect of the tax for the financial year for which this certificate is issued. If the change of ownership will not occur on or before the 30th June, another certificate should be sought in respect of the next financial year or requests for certificate should not be made until after 30th June.

#### ***Animal and Plant Control (Agriculture Protection and other purposes) Act 1986 and Regulations***

Agents should note that this legislation imposes a responsibility on a landholder to control and keep controlled proclaimed plants and particular classes of animals on a property.

Information should be obtained from:

- The vendor about the known presence of proclaimed plants or animals on the property including details which the vendor can obtain from records held by the local animal and plant control board
- The local animal and plant control board or the Animal and Plant Control Commission on the policies and priorities relating to the control of any serious proclaimed plants or animals in the area where the property is located.

#### ***Landscape South Australia 2019***

**8. No sale or lease before building is completed**

8.1 Subject to clause 14 and this clause, the Owner must not lease, sell, advertise for lease or sale, or transfer the land unless:

8.1.1 a dwelling (or, if the Encumbrancee has approved a non-residential use, a building consistent with the approved use), approved by the Encumbrancee under clause 2.1, has been completed upon the land; or

8.1.2 the Encumbrancee has consented in writing to the lease, sale, advertising or transfer.

8.2 If a dwelling (or other building referred to in clause 8.1), approved by the Encumbrancee under clause 2.1, has not been completed on the land and the Owner desires to transfer the land, then the following provisions will apply-

8.2.2 The Owner must make an offer in writing to the Encumbrancee to sell the land to the Encumbrancee or its nominee for the price fixed by the Encumbrancee. The offer will remain open for acceptance for one calendar month after the date of service of the offer.

declines the offer).

8.2.5 This clause does not prevent a transfer of the land, upon the death of the Owner, to a person entitled to land under the will or upon the intestacy of the Owner.

8.3 If a dwelling (or other building as referred to in clause 8.1), approved by the Encumbrancee under clause 2.1 has not been completed on the land and the Owner causes or permits the land to be advertised for sale without first complying with clause 8.2, then the following provisions will apply:-

8.3.1 The Encumbrancee may exercise its option to purchase the land for a price fixed by the Encumbrancee in the same manner as set out in clause 7.2 on the same terms and conditions as set out in clause 8.2.

8.3.2 The option must be exercised by notice in writing served on the Owner within one calendar month of the date on which the Encumbrancee becomes aware that the land has been advertised for sale. (A certificate under the hand of a manager or secretary or other senior officer of the Encumbrancee shall be conclusive evidence of such date).

8.3.3 Settlement must be effected within two calendar months of the exercise of the option.

#### 9. Not to fail to maintain

##### 9.1 The Owner must not allow:

9.1.1 the state of repair of the land, any building, structure or improvement on the land or of any painted surface; or

9.1.2 the general state of tidiness or cleanliness of the land or of any building, structure or improvement on the land; or

9.1.3 the maintenance of the landscaping, paving and car parking areas on the land,

to fall below a standard that is acceptable to the Encumbrancee.

9.2 The Encumbrancee must act in good faith in determining the standard acceptable to it for the purposes of this clause.

9.3 The Owner must not permit any carparking area to be used other than for vehicle parking.

9.4 The Owner must not permit any rubbish bin or similar receptacle to be placed between the front of any building erected on the land and the street alignment (except that a bin may be so placed immediately before being emptied or removed).

#### 10. Vehicle Parking

The Owner must not cause, suffer or permit any vehicle of a recreational nature (eg caravan, boat, campervan, etc) or a commercial nature (eg truck, bus, van, etc) to be parked between the front building line of any dwelling on the land and the road boundary (or boundaries) of the land (except on an irregular and infrequent basis) or to be parked anywhere else on the land so as to be visible from the street or from any other public place.

#### 11. Notice to rectify breach

11.1 The Encumbrancee, or a servant, agent or contractor of the Encumbrancee, may enter the land at any time, (after giving at least 24 hours notice to the Owner), for the purpose of inspecting the land to determine whether any of the Owner's obligations under this instrument has been breached. The Owner must not do (nor cause nor permit the doing of) anything to obstruct or hinder such entry or inspection.

11.2 If the Encumbrancee serves a written notice upon the Owner specifying a breach of any of the Owner's obligations under any of the foregoing clauses; and

11.3 the Owner fails to remedy the breach within one calendar month from the date of service of the notice, then

11.4 the Encumbrancee its servants, agents and contractors may enter the land and may take such action as the Encumbrancee deems necessary to remedy the breach; and

11.5 the Encumbrancee may recover from the Owner, in any court of competent jurisdiction, the costs incurred in remedying the breach.

## 12. Acknowledgment of building scheme

- 12.1 that the foregoing covenants are entered into and undertaken for the purposes of the Encumbrancee's scheme of development for the lands comprised in the Development Zone; and
- 12.2 that the Encumbrancee has warranted that it has required, and will continue to require, each purchaser of land in the Development Zone, as a condition of its sale, to execute an instrument in substantially similar form to this instrument and containing substantially similar covenants and other stipulations.

## 13. Waiver

- 13.1 The Encumbrancee, in its absolute discretion, may at any time modify, waive or release:-

- 13.2 A modification, waiver or release under clause 13.1.3 does not release the Owner from any of the covenants or stipulations referred to in clause 13.1.1 or 13.1.2.

## 14. Release of Owner upon sale

Once a building has been completed on the land in accordance with the terms of the approval required under clause 2.1, the following provisions will apply -

- 14.1 The rent charge and covenants contained in this instrument will be binding only upon the registered proprietor for the time being of the land.
- 14.2 Subject to clause 14.3, each successive registered proprietor of the land will be released from the payment of the rent charge and from the performance of the covenants immediately upon transferring the fee simple in the land to another person.
- 14.3 Despite a transfer as referred to in clause 14.2, the rights of the Encumbrancee will be preserved against any former registered proprietor, in relation to a breach of this Encumbrance which occurred either before the transfer or by reason of the transfer.

## 15. Sunset clause

The rights and obligations of the Encumbrancee (but not those of any person claiming under the Encumbrancee as purchasers of any land in the Development Zone) will cease from whichever of the following dates occurs first:-

- 15.1 a date two years after the practical completion of an approved building upon the last remaining vacant allotment in the Development Zone (excluding any allotment upon which no building is permitted to be erected); or
- 15.2 the 1st day of January 2016.

## 16. Service of notices

- 16.1 A notice may be served on the Owner ~~either~~ 
  - 16.1.1 by posting the notice in a prepaid envelope to the last known address of the Owner; or
  - 16.1.2 if a building has been erected on the land, by leaving the notice at or attached to the dwelling.
- 16.2 A Notice may be served on the Encumbrancee by being left at or posted in a prepaid envelope addressed to the Encumbrancee at its registered office in South Australia.
- 16.3 A notice served by post is deemed to have been served two (2) business days after posting.

## **BUILDING RULES CONSENT**

**GRANTED**

### Conditions of Consent:

Please refer to the attached copy of your Private Certifier's Building Rules Consent for Conditions of Consent (if applicable).

## **NOTES:**

### General:

- (1) Noise from devices and/or activities on the subject site should not impair or impinge on the amenity of neighbours at any time. The Environment Protection Authority has restrictions relating to the control of noise in the urban environment. Further information is available by phoning the Environment Protection Authority on 8204 2000.
- (2) Dust emissions from the site during construction shall be controlled by a dust suppressant or by watering regularly to the reasonable satisfaction of the Council.
- (3) All runoff and stormwater from the subject site during the construction phase must be either contained on site or directed through a temporary sediment trap or silt fence, prior to discharge to the stormwater system, to the reasonable satisfaction of the Council. (Acceptable ways of controlling silt and runoff during construction can be found in the Stormwater Pollution Prevention Code of Practice issued by the Environment Protection Authority).

- (4) Measures to prevent silt and mud from vehicle tyres and machinery being transported onto the road shall be installed and maintained at all times during the construction phase of the development, to the reasonable satisfaction of the Council. (A suggested measure is to install a gravelled construction exit with wash down facilities).
- (5) The proposed crossover/access must be constructed a minimum of 1.0 metre clear of all existing street infrastructure (including, but not limited to, stobie poles, street signs, storm water entry pits, pram ramps and Telstra pits) and a minimum of 2.0 metres clear of any existing street trees.

This is to enable your neighbour to obtain a report for which you are obliged to pay, that specifies any work that is required to be undertaken to ensure the stability of your neighbour's property is maintained during and following the undertaking of the work you propose. You should make yourself aware of these requirements before proceeding.
- (8) Before commencing any site works, a temporary vehicular access to the property for machinery, delivery of building materials and general vehicles should be provided. In the case where no driveway invert exists, the kerb can be saw cut and removed at the intended location for the new driveway invert to provide the necessary temporary access. In addition, if a paved Council footpath exists, this should also be removed in alignment with the removed section of kerb. The applicant should also take note of other information provided regarding use of, damage to and construction on Council owned land.
- (9) In assessing your application it has been determined that it is likely that you will be undertaking work that may affect the stability of adjoining land. Section 60 of the Development Act 1993 and Regulation 75 of the Development Regulations 2008, prescribe that your neighbour has a right to be notified by you 28 days prior to you undertaking that work. This is to enable your neighbour to obtain a report for which you are obliged to pay, that specifies any work that is required to be undertaken to ensure the stability of your neighbour's property is maintained during and following the undertaking of the work you propose. You should make yourself aware of these requirements before proceeding.

- (10) Council requires at least one business days notice of the following stages of building work:-
- a) prior to the placement of any concrete for footings or other structural purposes (Note - Where an engineer carries out an inspection, Council will also require a copy of the inspection certificate); and
  - b) at the completion of wall and roof frames prior to the fixing of any internal linings.
- (11) On completion of building work, the Development Act requires that a signed Statement of Compliance from the licensed builder be provided to the relevant authority declaring that the building work carried out is in accordance with the relevant approvals (pursuant to Regulation 83AB of the Development Regulations 2008).

### Mandatory Notifications

The amount payable on this Certificate must be paid in full even if only a portion of the subject land is being sold. RevenueSA cannot apportion the ESL.

If the amount payable is not paid in full, the purchaser may become liable for all of the outstanding ESL as at the date of settlement.

The owner of the land as at 12:01am on 1 July in the financial year of this Certificate will remain liable for any additional ESL accrued before the date of this Certificate, even if the amount payable on this Certificate has been paid.

Provision of this Certificate does not relieve the land owner of their responsibility to pay their Notice of ESL Assessment by the due date.

If the owner of the subject land is receiving an ESL pensioner concession but was not living in the property as their principal place of residence as at 12:01am on 1 July of the current financial year, or is now deceased, you must contact RevenueSA prior to settlement.

Does the council hold details of any development approvals relating to:

- a) commercial or industrial activity at the land; or
- b) a change in the use of the land or part of the land (within the meaning of the repealed Development Act 1993 or the Planning, Development and Infrastructure Act 2016)?

No

Description of the nature of the development(s) approved:

*Note—*

*The question relates to information that the council for the area in which the land is situated may hold. If the council answers "YES" to the question, it will provide a description of the nature of each development approved in respect of the land. The purchaser may then obtain further details from the council (on payment of any fee fixed by the council). However, it is expected that the ability to supply further details will vary considerably between councils.*

*A "YES" answer to paragraph (a) of the question may indicate that a potentially contaminating activity has taken place at the land (see sections 103C and 103H of the Environment Protection Act 1993) and that assessments or remediation of the land may be required at some future time.*

*It should be noted that—*

- the approval of development by a council does not necessarily mean that the development has taken place;*
- the council will not necessarily be able to provide a complete history of all such development that has taken place at the land.*

---

The information herein is provided pursuant to the Council's obligations under Section 7 of the Land Business (Sales Conveyancing) Act 1994.

Only that information which is required to be provided has been given and that information should not be taken as a representation as to whether or not any other charges or encumbrances affect the subject land.

I, Kellie Parker, Administration Officer of the City of Marion certify that the information provided in these responses is correct.
