Electricity and Telecommunications Infrastructure - Building Restrictions and Statutory Easements (including those related to gas, water and sewage)

Building restrictions

It is an offence under section 86 of the *Electricity Act 1996* to erect a building or structure within a prescribed distance of aerial or underground powerlines. In some, but not all, cases approval may be obtained from the Technical Regulator. Generally, however, land owners must not build, or alter a building or structure, with the result that any part of the resulting building or structure is within the minimum clearance distance required from certain types of powerlines. These building limitations are set out in the *Electricity (General) Regulations 2012* regulations 81 and 82. Purchasers intending to redevelop the property to be purchased should therefore be aware that the restrictions under the *Electricity Act* and *Regulations* may affect how, or if, they are able to redevelop the property.

In addition, if a building or structure is erected in proximity to a powerline of an electricity entity in contravention of the *Electricity Act*, the entity may seek a court order:

- a) requiring the person to take specified action to remove or modify the building or structure within a specified period;
- b) for compensation from the person for loss or damage suffered in consequence of the contravention; and/or
- c) for costs reasonably incurred by the entity in relocating the powerline or carrying out other work.

Contact the Office of the Technical Regulator in DEM on 8226 5500 for further details.

Statutory easements

Statutory easements for purposes such as (and without limitation) electricity, telecommunications, gas, water and sewage, may also exist, but may not be registered or defined on the title for the land.

Separate from the above building restrictions, South Australia's electricity supply and transmission businesses have statutory easements over land where part of the electricity distribution or transmission system was on, above or under the land as at particular dates specified by legislation.

This notice does not necessarily imply that any statutory or other easement exists.

However, where in existence, statutory easements may provide these organisations and businesses (identified in the relevant legislation) with the right of entry, at any reasonable time, to operate, repair, examine, replace, modify or maintain their equipment, to bring any vehicles or equipment on the land for these purposes, and to install, operate and carry out work on any pipelines, electricity or telecommunications cables or equipment that may be incorporated in, or attached to, their equipment (For example, see Clause 2 of Schedule 1 of the *Electricity Corporations (Restructuring and Disposal) Act 1999*; section 48A of the *Electricity Act 1996*).

For further clarification on these matters, please contact the relevant organisations or businesses, such as SA Power Networks' Easements Branch on telephone 8404 5897 or 8404 5894.

If you intend to excavate, develop or subdivide land, it is suggested that you first lodge a 'Dial Before you Dig' enquiry. Dial Before You Dig is a free referral service that provides information on the location of underground infrastructure. Using the Dial Before you Dig service (<https://1100.com.au>) may mitigate the risk of injury or expense resulting from inadvertent interference with, damage to, or requirement to relocate infrastructure.

***Land Tax Act 1936* and *Regulations* thereunder**

Agents should note that the current owner will remain liable for any additional charge accruing due before the date of this certificate which may be assessed on the land and also that the purchaser is only protected in respect of the tax for the financial year for which this certificate is issued. If the change of ownership will not occur on or before the 30th June, another certificate should be sought in respect of the next financial year or requests for certificate should not be made until after 30th June.

Animal and Plant Control (Agriculture Protection and other purposes) Act 1986* and *Regulations

Agents should note that this legislation imposes a responsibility on a landholder to control and keep controlled proclaimed plants and particular classes of animals on a property.

Information should be obtained from:

- The vendor about the known presence of proclaimed plants or animals on the property including details which the vendor can obtain from records held by the local animal and plant control board
- The local animal and plant control board or the Animal and Plant Control Commission on the policies and priorities relating to the control of any serious proclaimed plants or animals in the area where the property is located.

Landscape South Australia 2019

Water Resources Management - Taking of underground water

Under the provisions of the *Landscape South Australia Act 2019*, if you intend to utilise underground water on the land subject to this enquiry the following apply:

- A well construction permit accompanied by the prescribed fee is required if a well/bore exceeding 2.5 meters is to be constructed. As the prescribed fee is subject to annual review, you should visit the webpage below to confirm the current fee
- A licensed well driller is required to undertake all work on any well/bore
- Work on all wells/bores is to be undertaken in accordance with the *General specification for well drilling operations affecting water in South Australia*.

Further information may be obtained by visiting <https://www.environment.sa.gov.au/licences-and-permits/water-licence-and-permit-forms>. Alternatively, you may contact the Department for Environment and Water on (08) 8735 1134 or email DEWwaterlicensing@sa.gov.au.

IMPORTANT INFORMATION REGARDING SEARCHES

Ascot Conveyancing
PO Box 1130
FLAGSTAFF HILL SA 5159

Attention Conveyancers

- **Section 187 certificate update request free of charge (One Update):**
 - Penalties and interest, property charges, payments or dishonoured payments can impact account balances on a daily basis.
To assist with financial adjustments as close as practicable to the date of settlement, your **Section 187 certificate will now be valid for 90 days**. Within this period Council will offer one update request without charge. This update is to be obtained via the online portal.
It is important to note all searches advise when fines/interest will be applied. When receiving your update search, should it be evident that further penalties will be applied prior to settlement, you will need to still consider these additional amounts as part of your settlement statement calculations.
- **Please Note: Section 7 certificates remain valid for a 30 day period only.**
- **BPAY biller code added to searches to enable electronic settlement of funds**
 - Our BPAY biller code is now detailed on each search, enabling settlement funds to be disbursed to Council electronically. Please note that this is Councils preferred method of payment and we request that you cease the use of cheques to affect settlement.
- **How to advise Council of change of ownership?**
To also assist with the reduction of duplication of information being received from various agencies i.e. conveyancers and the Lands Titles Office, we are advocating that the **Purchaser's Conveyancer to advise the change of ownership** by following the below:
 - If you are using e-conveyancing to affect a sale, please **only issue advice to Council if the mail service address is different to what was lodged via the transfer at the LTO**. Council's new practice is to update ownership details including the mailing address in accordance with the advice provided by the Valuer General. Council has amended this change to align with SA Water practices and to provide an improved customer experience overall.
 - If lodging in person at Lands Title Office – Please send the change of ownership advice to Council via mail@onkaparinga.sa.gov.au. Electronic settlement of funds is still preferred.

Yours sincerely

Affordable Housing

The Affordable Housing Overlay seeks to ensure the integration of a range of affordable dwelling types into residential and mixed use development.

Hazards (Bushfire - High Risk) (High)

The Hazards (Bushfire - High Risk) Overlay seeks to ensure development responds to the high level of bushfire risk by siting and designing buildings to mitigate threat and impact of bushfires on life and property, facilitating access for emergency service vehicles and situating activities that increase the number of people living and working in the area away from areas of unacceptable bushfire risk.

Native Vegetation

The Native Vegetation Overlay seeks to protect, retain and restore areas of native vegetation.

Prescribed Wells Area

The Prescribed Wells Area Overlay seeks to ensure sustainable water use in prescribed wells areas.

Regulated and Significant Tree

The Regulated and Significant Tree Overlay seeks to mitigate the loss of regulated trees through appropriate development and redevelopment.

Stormwater Management

The Stormwater Management Overlay seeks to ensure new development incorporates water sensitive urban design techniques to capture and re-use stormwater.

Urban Tree Canopy

The Urban Tree Canopy Overlay seeks to preserve and enhance urban tree canopy through the planting of new trees and retention of existing mature trees where practicable.

Further information held by council

Does the council hold details of any development approvals relating to:

- (a) commercial or industrial activity at the land; or
- (b) a change in the use of the land or part of the land (within the meaning of the *Development Act 1993*)?

NO

Note –

The question relates to information that the council for the area in which the land is situated may hold. If the council answers “YES” to the question, it will provide a description of the nature of each development approved in respect of the land. The purchaser may then obtain further details from council (on payment of any fee fixed by the council). However, it is expected that the ability to supply further details will vary considerably between councils.

A “YES” answer to paragraph (a) of the question may indicate that a potentially contaminating activity has taken place at the land (see sections 103C and 103H of the Environment Protection Act 1993) and that assessments or remediation of the land may be required at some future time.

It should be noted that –

- the approval of development by a council does not necessarily mean that the development has taken place;
- the council will not necessarily be able to provide a complete history of all such development that has taken place at the land.
