Notices

Notices are printed under arrangement with organisations having some potential interest in the subject land. You should contact the identified party for further details.

Electricity and Telecommunications Infrastructure - Building Restrictions and Statutory Easements (including those related to gas, water and sewage)

Building restrictions

It is an offence under section 86 of the *Electricity Act 1996* to erect a building or structure within a prescribed distance of aerial or underground powerlines. In some, but not all, cases approval may be obtained from the Technical Regulator. Generally, however, land owners must not build, or alter a building or structure, with the result that any part of the resulting building or structure is within the minimum clearance distance required from certain types of powerlines. These building limitations are set out in the *Electricity (General) Regulations 2012* regulations 81 and 82. Purchasers intending to redevelop the property to be purchased should therefore be aware that the restrictions under the *Electricity Act* and *Regulations* may affect how, or if, they are able to redevelop the property.

In addition, if a building or structure is erected in proximity to a powerline of an electricity entity in contravention of the *Electricity Act*, the entity may seek a court order:

- a) requiring the person to take specified action to remove or modify the building or structure within a specified period;
- b) for compensation from the person for loss or damage suffered in consequence of the contravention; and/or
- c) for costs reasonably incurred by the entity in relocating the powerline or carrying out other work.

Contact the Office of the Technical Regulator in DEM on 8226 5500 for further details.

Statutory easements

Statutory easements for purposes such as (and without limitation) electricity, telecommunications, gas, water and sewage, may also exist, but may not be registered or defined on the title for the land.

Separate from the above building restrictions, South Australia's electricity supply and transmission businesses have statutory easements over land where part of the electricity distribution or transmission system was on, above or under the land as at particular dates specified by legislation.

This notice does not necessarily imply that any statutory or other easement exists.

However, where in existence, statutory easements may provide these organisations and businesses (identified in the relevant legislation) with the right of entry, at any reasonable time, to operate, repair, examine, replace, modify or maintain their equipment, to bring any vehicles or equipment on the land for these purposes, and to install, operate and carry out work on any pipelines, electricity or telecommunications cables or equipment that may be incorporated in, or attached to, their equipment (For example, see Clause 2 of Schedule 1 of the *Electricity Corporations (Restructuring and Disposal) Act 1999*; section 48A of the *Electricity Act 1996*).

For further clarification on these matters, please contact the relevant organisations or businesses, such as SA Power Networks' Easements Branch on telephone 8404 5897 or 8404 5894.

If you intend to excavate, develop or subdivide land, it is suggested that you first lodge a 'Dial Before you Dig' enquiry. Dial Before You Dig is a free referral service that provides information on the location of underground infrastructure. Using the Dial Before you Dig service (<https://1100.com.au>) may mitigate the risk of injury or expense resulting from inadvertent interference with, damage to, or requirement to relocate infrastructure.

***Land Tax Act 1936* and *Regulations* thereunder**

Agents should note that the current owner will remain liable for any additional charge accruing due before the date of this certificate which may be assessed on the land and also that the purchaser is only protected in respect of the tax for the financial year for which this certificate is issued. If the change of ownership will not occur on or before the 30th June, another certificate should be sought in respect of the next financial year or requests for certificate should not be made until after 30th June.

Animal and Plant Control (Agriculture Protection and other purposes) Act 1986* and *Regulations

Agents should note that this legislation imposes a responsibility on a landholder to control and keep controlled proclaimed plants and particular classes of animals on a property.

Information should be obtained from:

- The vendor about the known presence of proclaimed plants or animals on the property including details which the vendor can obtain from records held by the local animal and plant control board
- The local animal and plant control board or the Animal and Plant Control Commission on the policies and priorities relating to the control of any serious proclaimed plants or animals in the area where the property is located.

Landscape South Australia 2019

Water Resources Management - Taking of underground water

Under the provisions of the *Landscape South Australia Act 2019*, if you intend to utilise underground water on the land subject to this enquiry the following apply:

- A well construction permit accompanied by the prescribed fee is required if a well/bore exceeding 2.5 meters is to be constructed. As the prescribed fee is subject to annual review, you should visit the webpage below to confirm the current fee
- A licensed well driller is required to undertake all work on any well/bore
- Work on all wells/bores is to be undertaken in accordance with the *General specification for well drilling operations affecting water in South Australia*.

Further information may be obtained by visiting <https://www.environment.sa.gov.au/licences-and-permits/water-licence-and-permit-forms>. Alternatively, you may contact the Department for Environment and Water on (08) 8735 1134 or email DEWwaterlicensing@sa.gov.au.

Does the council hold details of any development approvals relating to:

- commercial or industrial activity at the land; or
- a change in the use of the land or part of the land (within the meaning of the repealed Development Act 1993 or the Planning, Development and Infrastructure Act 2016)?

No

Description of the nature of the development(s) approved:

Note—

The question relates to information that the council for the area in which the land is situated may hold. If the council answers "YES" to the question, it will provide a description of the nature of each development approved in respect of the land. The purchaser may then obtain further details from the council (on payment of any fee fixed by the council). However, it is expected that the ability to supply further details will vary considerably between councils.

A "YES" answer to paragraph (a) of the question may indicate that a potentially contaminating activity has taken place at the land (see sections 103C and 103H of the Environment Protection Act 1993) and that assessments or remediation of the land may be required at some future time.

It should be noted that—

- the approval of development by a council does not necessarily mean that the development has taken place;*
- the council will not necessarily be able to provide a complete history of all such development that has taken place at the land.*

The information herein is provided pursuant to the Council's obligations under Section 7 of the Land Business (Sales Conveyancing) Act 1994.

Only that information which is required to be provided has been given and that information should not be taken as a representation as to whether or not any other charges or encumbrances affect the subject land.

I, Kellie Parker, Administration Officer of the City of Marion certify that the information provided in these responses is correct.

PROVISIONAL DEVELOPMENT PLAN CONSENT

GRANTED

Reasons For Decision:

Consent is granted as the proposed development is considered to accord sufficiently with the provisions of the Development Plan.

The following conditions have been imposed to reasonably ensure that the development will not impair the orderly and proper planning of the locality or detrimentally affect the amenity of the locality, having particular regard to the Objectives and Principles of Development Control applicable to such a use in the locality.

Conditions of Consent:

- (1) The development shall proceed in accordance with the plans and details submitted with and forming part of Development Application No.100/2755/2006 (being drawing number(s) C88055 prepared by Koukourou Engineers, and documentation titled "Stormwater Layout", received by Council on 25 January 2007) except when varied by the following conditions of consent.
- (2) Where the driveway crosses the front boundary, the finished ground level shall be between 50mm and 150mm above the top of kerb.
- (3) A continuous path of at least 900mm width shall be maintained on one side of the dwelling (i.e. a 900mm wide path that is unobstructed by any equipment or mechanical plant such as water heaters, air conditioners, stormwater detention tanks, rainwater tanks or similar must be maintained) in order to provide access from the front of the property to the rear, to the reasonable satisfaction of the Council.
- (4) All buildings and paved areas shall be connected to a stormwater collection and disposal system that is connected to the street watertable or, where relevant, back of block drainage pipes.

- (5) Stormwater from the structure approved herein shall be collected and directed into a detention tank (or tanks) which are sized and installed in accordance with the specifications contained in Council's Information Sheet "Stormwater Detention" to the reasonable satisfaction of the Council (copies of relevant documents are attached).
- (6) All stormwater from buildings and paved areas shall be disposed of in accordance with the approved plans and details prior to the occupation of the premises to the reasonable satisfaction of the Council.
- (7) The stormwater collection and disposal system shall be connected to the street watertable (inclusive of any system that connects to the street watertable via detention or rainwater tanks) immediately following roof completion and gutter and downpipe installation.
- (8) Dust emissions from the site during construction shall be controlled by a dust suppressant or by watering regularly to the reasonable satisfaction of the Council.
- (9) All runoff and stormwater from the subject site during the construction phase must be either contained on site or directed through a temporary sediment trap or silt fence, prior to discharge to the stormwater system, to the reasonable satisfaction of the Council. (Acceptable ways of controlling silt and runoff during construction can be found in the Stormwater Pollution Prevention Code of Practice issued by the Environment Protection Authority).
- (10) Measures to prevent silt and mud from vehicle tyres and machinery being transported onto the road shall be installed and maintained at all times during the construction phase of the development, to the reasonable satisfaction of the Council. (A suggested measure is to install a gravelled construction exit with wash down facilities).

PROVISIONAL BUILDING RULES CONSENT

GRANTED

Conditions of Consent:

Please refer to the attached copy of your Private Certifier's Provisional Building Rules Consent for Conditions of Consent (if applicable).

NOTES:

General:

- (1) The applicant is reminded that Development Approval from the Council is required for any retaining wall over one metre in height, any masonry fence over one metre in height, any non-masonry fence (eg colorbond, wood paling, brush etc) over two metres in height, and any retaining wall with a fence on top with a total height over 2m in height (measured from the lower of the two adjacent ground levels).
- (2) The street tree that is required to be removed (Nettle Tree - *Celtis Australis*) to accommodate Residence 2's crossover/driveway must be replaced in the Council verge in front of Residence 2 with the same species.
- (3) Before commencing any site works, a temporary vehicular access to the property for machinery, delivery of building materials and general vehicles should be provided. In the case where no driveway invert exists, the kerb can be saw cut and removed at the intended location for the new driveway invert to provide the necessary temporary access. In addition, if a paved Council footpath exists, this should also be removed in alignment with the removed section of kerb. The applicant should also take note of other information provided regarding use of, damage to and construction on Council owned land.
- (4) In assessing your application it has been determined that it is likely that you will be undertaking work that may affect the stability of adjoining land. Section 60 of the Development Act 1993 and Regulation 75 of the Development Regulations 1993, prescribe that your neighbour has a right to be notified by you 28 days prior to you undertaking that work. This is to enable your neighbour to obtain a report for which you are obliged to pay, that specifies any work that is required to be undertaken to ensure the stability of your neighbour's property is maintained during and following the undertaking of the work you propose. You should make yourself aware of these requirements before proceeding.
- (5) Council requires at least one business days notice of the following stages of building work:-
 - a) prior to the placement of any concrete for footings or other structural purposes (Note - Where an engineer carries out an inspection, Council will also require a copy of the inspection certificate); and
 - b) at the completion of wall and roof frames prior to the fixing of any internal linings.
- (6) On completion of building work, the Development Act requires that a signed Statement of Compliance from the licensed builder be provided to the relevant authority declaring that the building work carried out is in accordance with the relevant approvals (pursuant to Regulation 83AB of the Development Regulations 1993).
- (7) Council wishes to advise that during the construction of any party wall/common wall the applicant should ensure that a suitably qualified person is present to inspect the works to ensure that all party walls/common walls associated with the development are fire rated in accordance with the Building Code of Australia. Statements regarding the adequacy of party walls/common walls may be requested as part of any future land division.

Appeal Rights:

(1) If you are not satisfied with this decision, there may be a right of appeal to you. Applicants have the right to appeal against a refusal or the imposition of any conditions or requirements on any consent issued, unless the application was for a non-complying kind of development. An appeal by an applicant must be lodged within two (2) months of receiving notice of the decision. Where Category Three public notification was involved, persons who lodged written representations during the formal consultation period, have the right to appeal against any decision made on that application. An appeal by a third party must be lodged within fifteen (15) business days of the date of the decision. All appeals are lodged with the Environment, Resources and Development Court, Sir Samuel Way Building, Victoria Square, Adelaide, telephone: 8204 0300.

Approval Timeframes:

(1) The proposed development must:

- be substantially commenced within twelve months from the date full Development Approval is granted; and
- be completed within three years of full Development Approval being granted

noting that the operative date of any consent or approval, is subject to any appeal where applicable being finally determined.

IF ONE OR MORE CONSENTS HAVE BEEN GRANTED ON THIS NOTIFICATION FORM, YOU MUST NOT START ANY SITE WORKS OR BUILDING WORK OR CHANGE THE USE OF THE LAND UNTIL YOU HAVE ALSO RECEIVED NOTIFICATION OF A DEVELOPMENT APPROVAL.

PROVISIONAL BUILDING RULES CONSENT CONDITIONS

1. The roof trusses for the **tile** roof shall be:
 - a proprietary product designed and manufactured by licensed manufacturer to the provisions of AS1720.1 and AS1649, and
 - utilising a wind classification of N1 in accordance with AS4055, and
 - erected, installed and braced in accordance with AS4440 and the manufacturer's specification,with satisfactory details of the truss designs being submitted to the certifier prior to such work being commenced.
2. The garage lintel is to have a 300mm wide base plate and certified by the engineer.

PROVISIONAL BUILDING RULES CONSENT NOTES

1. Notification by the owner must be given to the Council at the following stages:
 - one business day's notice of the intended commencement of building work on the site, and
 - one business days notice of the completion of the building work.Council may have a requirement to be notified at other stages of construction. It is strongly recommended you read all documentation from Council to ensure you do not commit an offence under the Development Act 1993.
2. Notice of intended commencement of building work, must also include the name, address and telephone number of the persons to sign Parts A and B of the Statement of Compliance.
3. The building owner who proposes to carry out any excavation or filling of a nature prescribed in Regulation 75 of the Development Regulations 1993 shall serve upon the adjoining owner a notice of his intention to perform that work as required by Section 60 of the Development Act. That is any work close to or on a boundary and likely to effect any adjoining land or building.
4. Pursuant to Regulation 83 AB (Class 1a buildings) of the Development Regulations 1993 the licensed builder or if there is no licensed builder a private certifier or registered building work supervisor must provide Professional Building Services Australia with a written statement declaring that the building work has been carried out in accordance with the building Consent documents. This statement must be provided within 10 days after occupation of the dwelling.
5. All members of the community have a general environmental duty under the Environment Protection Act. The Environment Protection Agency Code of Practice for the Building and Construction Industry provides benchmarks of best practice and contains certain mandatory provisions for preventing contaminants entering the stormwater system.
6. This Consent does not, and shall not, be construed to signify Professional Building Services Australia's approval of any building or structure which is, or may be subject to the provisions of the Electricity Trust of South Australia's Regulations controlling building or development within prescribed distances of overhead power supply lines, or alternatively, underground power supply lines. For further information contact the Electricity Trust of South Australia.

PAYMENT REMITTANCE ADVICE

No payment is required on this Certificate

Please Note:

Please check that the property details shown on this Certificate are correct for the land being sold.

The amount payable on this Certificate is accurate as at the date of issue.

This Certificate is only valid for the financial year shown.

If the change of ownership will occur in the following financial year, you must obtain another Certificate after 30 June.

Payment should be made as part of the settlement process.

The amount payable on this Certificate must be paid in full even if only a portion of the subject land is being sold. RevenueSA cannot apportion the ESL.

If the amount payable is not paid in full, the purchaser may become liable for all of the outstanding ESL as at the date of settlement.

The owner of the land as at 12:01am on 1 July in the financial year of this Certificate will remain liable for any additional ESL accrued before the date of this Certificate, even if the amount payable on this Certificate has been paid.

Provision of this Certificate does not relieve the land owner of their responsibility to pay their Notice of ESL Assessment by the due date.

If the owner of the subject land is receiving an ESL pensioner concession but was not living in the property as their principal place of residence as at 12:01am on 1 July of the current financial year, or is now deceased, you must contact RevenueSA prior to settlement.

The amount payable on this Certificate must be paid in full even if only a portion of the subject land is being sold. RevenueSA cannot apportion the land tax.

If the amount payable is not paid in full on or before the due date shown on this Certificate, the purchaser will not be released from liability of the whole amount of the land tax outstanding as at the date of settlement.

The owner of the land as at midnight on 30 June immediately before the financial year of this Certificate will remain liable for any additional land tax accrued before the date of this Certificate, even if the amount payable on this Certificate has been paid.

The amount payable on this Certificate is the land tax payable at the date of issue. However, land tax for a particular financial year may be reassessed at any time, changing the amount payable.

Should a reassessment occur after this Certificate has been paid in full, the purchaser will remain indemnified and will not be responsible for payment of the new land tax payable amount. The owner at the beginning of the relevant financial year will be responsible for payment of any additional land tax payable.

Should a reassessment occur after this Certificate has been issued but not paid in full, the purchaser will not be indemnified and may become responsible for payment of the new land tax payable amount.

Should a reassessment occur after this Certificate has been paid in full and the Certificate is subsequently updated, the purchaser will not be indemnified and may become responsible for payment of the new land tax payable amount.

Provision of this Certificate does not relieve the land owner of their responsibility to pay their Notice of Land Tax Assessment by the due date.
