Attention Conveyancers

○ **Section 187 certificate update request free of charge (One Update):**

- Penalties and interest, property charges, payments or dishonoured payments can impact account balances on a daily basis.

To assist with financial adjustments as close as practicable to the date of settlement, your **Section 187 certificate will now be valid for 90 days**. Within this period Council will offer one update request without charge. This update is to be obtained via the online portal.

It is important to note all searches advise when fines/interest will be applied. When receiving your update search, should it be evident that further penalties will be applied prior to settlement, you will need to still consider these additional amounts as part of your settlement statement calculations.

Please Note: Section 7 certificates remain valid for a 30 day period only.

○ **BPAY biller code added to searches to enable electronic settlement of funds**

- Our BPAY biller code is now detailed on each search, enabling settlement funds to be disbursed to Council electronically. Please note that this is Council's preferred method payment and we request that you cease the use of cheques to affect settlement.

○ **How to advise Council of change of ownership?**

To also assist with the reduction of duplication of information being received from various agencies i.e. conveyancers and the Lands Titles Office, we are advocating that the **Purchaser's Conveyancer** to advise the change of ownership by following the below:

- If you are using e-conveyancing to affect a sale, please **only issue advice to Council if the mail service address is different to what was lodged via the transfer at the LTO**. Council's new practice is to update ownership details including the mailing address in accordance with the advice provided by the Valuer General. Council has amended this change to align with SA Water practices and to provide an improved customer experience overall.
- If lodging in person at Lands Title Office – Please send the change of ownership advice to Council via mail@onkaparinga.sa.gov.au. Electronic settlement of funds is still preferred.

Yours sincerely

Further information held by council

Does the council hold details of any development approvals relating to:

NO

(a) commercial or industrial activity at the land; or

(b) a change in the use of the land or part of the land (within the meaning of the

Development Act 1993) or the *Planning, Development and Infrastructure Act 2016*?

Note –

The question relates to information that the council for the area in which the land is situated may hold. If the council answers “YES” to the question, it will provide a description of the nature of each development approved in respect of the land. The purchaser may then obtain further details from council (on payment of any fee fixed by the council). However, it is expected that the ability to supply further details will vary considerably between councils.

A “YES” answer to paragraph (a) of the question may indicate that a potentially contaminating activity has taken place at the land (see sections 103C and 103H of the Environment Protection Act 1993) and that assessments or remediation of the land may be required at some future time.

It should be noted that –

- the approval of development by a council does not necessarily mean that the development has taken place;
- the council will not necessarily be able to provide a complete history of all such development that has taken place at the land.

Electricity and Telecommunications Infrastructure - Building Restrictions and Statutory Easements (including those related to gas, water and sewage)

Building restrictions

It is an offence under section 86 of the *Electricity Act 1996* to erect a building or structure within a prescribed distance of aerial or underground powerlines. In some, but not all, cases approval may be obtained from the Technical Regulator. Generally, however, land owners must not build, or alter a building or structure, with the result that any part of the resulting building or structure is within the minimum clearance distance required from certain types of powerlines. These building limitations are set out in the *Electricity (General) Regulations 2012* regulations 81 and 82. Purchasers intending to redevelop the property to be purchased should therefore be aware that the restrictions under the *Electricity Act* and *Regulations* may affect how, or if, they are able to redevelop the property.

In addition, if a building or structure is erected in proximity to a powerline of an electricity entity in contravention of the *Electricity Act*, the entity may seek a court order:

- a) requiring the person to take specified action to remove or modify the building or structure within a specified period;
- b) for compensation from the person for loss or damage suffered in consequence of the contravention; and/or
- c) for costs reasonably incurred by the entity in relocating the powerline or carrying out other work.

Contact the Office of the Technical Regulator in DEM on 8226 5500 for further details.

Statutory easements

Statutory easements for purposes such as (and without limitation) electricity, telecommunications, gas, water and sewage, may also exist, but may not be registered or defined on the title for the land.

Separate from the above building restrictions, South Australia's electricity supply and transmission businesses have statutory easements over land where part of the electricity distribution or transmission system was on, above or under the land as at particular dates specified by legislation.

This notice does not necessarily imply that any statutory or other easement exists.

However, where in existence, statutory easements may provide these organisations and businesses (identified in the relevant legislation) with the right of entry, at any reasonable time, to operate, repair, examine, replace, modify or maintain their equipment, to bring any vehicles or equipment on the land for these purposes, and to install, operate and carry out work on any pipelines, electricity or telecommunications cables or equipment that may be incorporated in, or attached to, their equipment (For example, see Clause 2 of Schedule 1 of the *Electricity Corporations (Restructuring and Disposal) Act 1999*; section 48A of the *Electricity Act 1996*).

For further clarification on these matters, please contact the relevant organisations or businesses, such as SA Power Networks' Easements Branch on telephone 8404 5897 or 8404 5894.

If you intend to excavate, develop or subdivide land, it is suggested that you first lodge a 'Dial Before you Dig' enquiry. Dial Before You Dig is a free referral service that provides information on the location of underground infrastructure. Using the Dial Before you Dig service (<https://1100.com.au>) may mitigate the risk of injury or expense resulting from inadvertent interference with, damage to, or requirement to relocate infrastructure.

Land Tax Act 1936 and Regulations thereunder

Agents should note that the current owner will remain liable for any additional charge accruing due before the date of this certificate which may be assessed on the land and also that the purchaser is only protected in respect of the tax for the financial year for which this certificate is issued. If the change of ownership will not occur on or before the 30th June, another certificate should be sought in respect of the next financial year or requests for certificate should not be made until after 30th June.

Animal and Plant Control (Agriculture Protection and other purposes) Act 1986 and Regulations

Agents should note that this legislation imposes a responsibility on a landholder to control and keep controlled proclaimed plants and particular classes of animals on a property.

Information should be obtained from:

- The vendor about the known presence of proclaimed plants or animals on the property including details which the vendor can obtain from records held by the local animal and plant control board
- The local animal and plant control board or the Animal and Plant Control Commission on the policies and priorities relating to the control of any serious proclaimed plants or animals in the area where the property is located.

Landscape South Australia 2019

OPERATIVE PART

1. INTERPRETATION

1.1. Definitions

"the Council" means the of the City of Onkaparinga and its successors.

"Application" or "Land Division application" means DA 145/D653/2003 and DA 145/1012/05 as the case may be or the context permits or suits

1.2. Construction

In this document, unless the context otherwise requires:

- (a) words importing the singular include the plural and vice versa;
- (b) an obligation of two or more parties shall bind them jointly and severally;
- (c) if a word or phrase is defined cognate words and phrases have corresponding definitions; and
- (d) a reference to:
 - (i) a person includes a corporation and a body politic;
 - (ii) a statute, ordinance, code or other law includes regulations and other statutory instruments under it and consolidations, amendments, re-enactments or replacements of any of them made by any legislative authority;
 - (iii) any thing (including, without limitation, any amount) is a reference to the whole or any part of it and a reference to a group of things or persons is a reference to any

- one or more of them; and
- (iv) a right includes a remedy, authority or power.

- (e) any reference to a numbered allotment/lot is a reference to that allotment/lot on the attached plan which numbers may not represent the correct allotment/lot number assigned to those allotments in the Lands Title Office.

1.3. Headings

Headings shall be ignored in construing this document.

2. **LAND and DWELLINGS HAVING A FRONTAGE TO ALDINGA BEACH ROAD**

The Owner agrees that in respect of any of the proposed allotments having a frontage to Aldinga Beach Road identified on the attached plan as allotments 1 – 6 (inclusive), 87, 88, 129 – 132 (inclusive), 145, 146, and 155 – 163 (inclusive) any dwelling constructed thereon shall not be more than 1 storey and shall not in any event be more than 5.5 metres high above natural ground level measured to the highest point of the dwelling including the highest point of the roof (excluding any chimney or like structure).

3. **STORMWATER HARVESTING TECHNIQUES**

The Owner and the Council agree that it is desirable to conserve water and to use water in an appropriate and environmentally friendly and economic manner. The Owner submitted to the Council a particular technique for the harvesting of stormwater within the proposed allotments to be created as part of the application. Accordingly it has been agreed that the Owner shall establish water harvesting techniques in association with each of the allotments in the form as appears in the attached document prepared by Structural Civil Australia or some other similar water harvesting techniques as may be approved by the Council. Such technique will enable stormwater to be collected on each of the residential allotments and to then be used to provide water for any toilets to be established within any dwellings and also for the water to be used for watering any gardens/open space areas of any dwellings to be established on the allotments.

4. **ALTERNATIVE STORMWATER TECHNIQUES**

The original application as submitted to the Council involved a stormwater disposal system using specially designed and constructed swales within road reserves which would then drain into proposed lot (reserve) 800 where a specially designed stormwater disposal system known as a slow release infiltration system was to be constructed. This would have enabled stormwater to be collected and held underground in a tank with the water then slowly released and returned to the aquifer through infiltration.

Subsequently nearby land owned by SA Water being the land in Certificate of Title Volume 5418 Folio 508 has become available which can be used for the treatment and disposal of stormwater from the land (and other nearby land). Council expects that care and control in respect of that land will vest in the Council in the immediate future (the Council wetland land).

Council has agreed with the Owner that the Council wetland land can be used for the treatment and disposal of stormwater associated with the land on the basis that the Owner will make a financial contribution to establish a wetland etc on the Council wetland land. However such works on the Council wetland land are unlikely to take place prior to development of (all of) the

allotments proposed to be created as part of the Consent.

The Owner proposes to develop the land in 10 stages. Council has received engineering advice regarding stormwater discharge associated with the land if it is fully developed for residential purposes in accordance with the Consent. The engineering advice is that stormwater associated with the development of Stages 1- 8 inclusive as marked on the plan can be treated and disposed of on the land without the need to utilise the wetland on the Council wetland land nor any swales or infiltration system.

The Owner and the Council have agreed that the Owner can proceed to develop stages 1 – 8 inclusive without the infiltration system and the swales as long as it implements appropriate stormwater disposal techniques on the land as per the advice in a letter from Connell Wagner dated 14 March 2005 received by the Council (which generally involves the use of the area of lot (reserve) 800 and the area of stages 9 & 10).

The parties have further agreed that if the wetland on the Council wetland land has not been established or for whatever reason stormwater associated with the land can not be disposed of into/onto the Council wetland land at the time when the Owner wishes to proceed with the creation of the allotments in stages 9 & 10, the Owner must establish an appropriate infiltration system generally as approved in association with Development Application 145/D653/2003 (or as may be required by Council to be varied to account for changed stormwater inputs) in and under lot (reserve) 800 to treat with and dispose of all of the stormwater associated with **all** of the land, at no cost to the Council.

5. ADDITIONAL REQUIREMENTS

The requirements of this Agreement are at all times to be construed as additional to the requirements of the Act and any other legislation affecting development of the land and in particular are in addition to the conditions attached to the Consent and in respect of any future Development Application to establish dwellings or other development on the allotments.

6. OPERATION OF THIS DEED

The parties expressly agree and declare that the provisions of this Deed will not be binding or impose any obligation upon them unless or until the date the Registrar-General deposits the plan of division in the Land Titles Registration Office pursuant to the provisions of the Real Property Act.

7. RESCISSION

In the event that:

- 7.1 any development authorisation obtained for the application lapses or expires by virtue of the provisions of the Act without being implemented by the Owner; or
- 7.2 the Registrar-General does not deposit the plan of division in the Lands Titles Registration Office or any minor variation thereof

the Council agrees to rescind this Deed at the request of the Owner and the reasonable costs of and incidental to the preparation, stamping and registration of the Deed of Rescission shall be borne by the Owner.

8. RIGHT OF INSPECTION

8. RIGHT OF INSPECTION

- 8.1. inspecting the land and any building on the land
- 8.2. exercising any other powers of the Council under this Agreement.

9. NOTICE TO REMEDY

If the Owner is in breach of this Agreement the Council must by notice in writing served on the Owner require the Owner to remedy the breach (including the reinstatement of the land) within such time nominated by the Council in the notice (being not less than 10 business days of the date of the service of the notice) and if the Owner fails to remedy the breach, the Council or its servants or agents may carry out the requirements of the notice and in so doing perform any necessary works upon the land and recover any costs thereby incurred from the Owner as a debt due and owing to the Council.

10. RIGHT TO REMOVE

If in a notice referred to in the preceding paragraph the Council requires removal of anything from the land which may include but shall not be limited to a building or material of any kind the Council and its servants or agents are hereby authorised and empowered by the Owner to remove the said thing or things from the land (provided that the said thing or things have not previously been approved by the Council) and dispose of it or them in any manner determined by the Council PROVIDED THAT if the said thing or things shall have any monetary value then the Council shall use its best endeavours to realise that monetary value and shall after the disposal account to the Owner and pay to it the realised value less all expenses reasonably incurred by the Council in such removal and disposal.

11. DELEGATION

The Council may delegate any of the Council's powers under this Agreement to any person.

12. GIVING OF NOTICE

A notice shall for the purpose of this Agreement be properly served on the Owner if it is:-

- 12.1 posted to the Owner's last address known to the Council in which event it will be deemed to have been received on the day after posting,
- 12.2 affixed to a prominent position on the land.

13. REGISTRATION AND COSTS

- 13.1 The Council requests that this Agreement be registered on the land comprised in Certificates of Titles Volume 5698 Folio 122 and 123, Certificate of Title Volume 5630 Folio 153 and Certificate of Title Volume 5849 Folio 772
- 13.2 The parties acknowledge that the Owner has agreed to bear the costs of such registration and associated costs including the costs of preparation of this Agreement.
- 13.3 Each party hereto shall do all things necessary to ensure that this Agreement is registered and a memorial thereof is entered on the said Certificate of Title pursuant to the provisions of Section 57 of the Act.

14. ENTIRE AGREEMENT VARIATION and WAIVER

- 14.1 This Agreement contains the whole of the agreement between the Owner and the Council in respect of the subject matter hereof namely the form and height of any dwellings to be established on the said allotments and the treatment and disposal of stormwater both within the proposed allotments and within or off the land generally. Any variation to the Agreement shall be in writing and attested to by the parties in writing.
- 14.2 The Council and the Owner acknowledge that the Recitals are true and accurate and agree that they form part of this Agreement.
- 14.3 This Deed may not be varied except by a supplementary Deed signed by the Council and the Owner.
- 14.4 The Council may waive compliance by the Owner with the whole or any part of the obligations of the Owner herein contained provided that no such waiver shall be effective unless expressed in writing and signed by the Council.

15. SEVERANCE

- 15.1 If a provision of this Agreement is void or voidable or unenforceable but would not be void or voidable or unenforceable if it were read down and is capable of being read down it shall be read down accordingly.
- 15.2 If not withstanding sub-clause 1 hereof, a provision of this Agreement is still void or voidable or unenforceable:-
- (i) if the provision would not be void or voidable or unenforceable as aforesaid if a word or words were omitted therefrom, that word or those words (as the case may be) are hereby severed;
 - (ii) if necessary, the whole provision is hereby severed; and

the remainder of this Agreement has full force and effect.

EXECUTED unconditionally by the parties as an Agreement pursuant to the provisions of

Dear Stephen

**BAYSWOOD ESTATE ALDINGA – DEVELOPMENT NO 145/0653/03
REVISED STORMWATER STRATEGY**

Following our meeting on 3 March 2005, we have investigated the stormwater strategy to re-engineer Stages 3 to 8 of the project. We understand that a fail safe stormwater strategy needs to be in place in the event the implementation of the wetland in Moss land is delayed.

The following sets out the stormwater strategy:

- The dirty stormwater from the roadways in Stages 3 to 8 will be filtered using proprietary gross pollutant trap (GPT). The GPT will be located in the central reserve near the southern boundary. This will ensure gross pollutants from the development are filtered prior to discharge into the wetland.
- If the Moss wetland is not in place prior to commencement of Stage 9, a temporary detention basin will be required to attenuate discharge from the developed area. The temporary detention basin will be located in the southern portion of the central reserve. Temporary earth bunding will be used to form the detention basin.
- The allotment stormwater harvesting and reuse requirements eg with provision of rainwater tank, soakage trenches and containment of stormwater runoff to pre-development levels etc, for Stages 3 to 8 will remain unchanged as per the original Council Development Conditions of Approval.
- Stages 9 to 10 – The final draft Land Management Agreement proposal for the allotment as set out in the original Council Development Conditions will remain unchanged.

The proposed stormwater strategy is depicted on the attached sketch plan.

We trust the above meets your requirements for approval. Please contact the undersigned if you have any queries.

Yours faithfully

Boon Chua
