Due diligence checklist

What you need to know before buying a residential property

Before you buy a home, you should be aware of a range of issues that may affect that property and impose restrictions or obligations on you, if you buy it. This checklist aims to help you identify whether any of these issues will affect you. The questions are a starting point only and you may need to seek professional advice to answer some of them. You can find links to organisations and web pages that can help you learn more, by visiting the Due diligence checklist page on the Consumer Affairs Victoria website (consumer.vic.gov.au/duediligencechecklist).

Urban living

Moving to the inner city?

High density areas are attractive for their entertainment and service areas, but these activities create increased traffic as well as noise and odours from businesses and people. Familiarising yourself with the character of the area will give you a balanced understanding of what to expect.

Is the property subject to an owners corporation?

If the property is part of a subdivision with common property such as driveways or grounds, it may be subject to an owners corporation. You may be required to pay fees and follow rules that restrict what you can do on your property, such as a ban on pet ownership.

Growth areas

Are you moving to a growth area?

You should investigate whether you will be required to pay a growth areas infrastructure contribution.

Flood and fire risk

Does this property experience flooding or bushfire?

Properties are sometimes subject to the risk of fire and flooding due to their location. You should properly investigate these risks and consider their implications for land management, buildings and insurance premiums.

Rural properties

Moving to the country?

If you are looking at property in a rural zone, consider:

- Is the surrounding land use compatible with your lifestyle expectations? Farming can create noise or odour that may be at odds with your expectations of a rural lifestyle.
- Are you considering removing native vegetation? There are regulations which affect your ability to remove native vegetation on private property.

(04/10/2016)

- Do you understand your obligations to manage weeds and pest animals?

Can you build new dwellings?

Does the property adjoin crown land, have a water frontage, contain a disused government road, or are there any crown licences associated with the land?

Is there any earth resource activity such as mining in the area?

You may wish to find out more about exploration, mining and quarrying activity on or near the property and consider the issue of petroleum, geothermal and greenhouse gas sequestration permits, leases and licences, extractive industry authorisations and mineral licences.

Soil and groundwater contamination

Has previous land use affected the soil or groundwater?

You should consider whether past activities, including the use of adjacent land, may have caused contamination at the site and whether this may prevent you from doing certain things to or on the land in the future.

Land boundaries

Do you know the exact boundary of the property?

You should compare the measurements shown on the title document with actual fences and buildings on the property, to make sure the boundaries match. If you have concerns about this, you can speak to your lawyer or conveyancer, or commission a site survey to establish property boundaries.

Planning controls

Can you change how the property is used, or the buildings on it?

All land is subject to a planning scheme, run by the local council. How the property is zoned and any overlays that may apply, will determine how the land can be used. This may restrict such things as whether you can build on vacant land or how you can alter or develop the land and its buildings over time.

The local council can give you advice about the planning scheme, as well as details of any other restrictions that may apply, such as design guidelines or bushfire safety design. There may also be restrictions – known as encumbrances – on the property's title, which prevent you from developing the property. You can find out about encumbrances by looking at the section 32 statement.

Are there any proposed or granted planning permits?

The local council can advise you if there are any proposed or issued planning permits for any properties close by. Significant developments in your area may change the local 'character' (predominant style of the area) and may increase noise or traffic near the property.

Safety

Is the building safe to live in?

Building laws are in place to ensure building safety. Professional building inspections can help you assess the property for electrical safety, possible illegal building work, adequate pool or spa fencing and the presence of asbestos, termites, or other potential hazards.

Building permits

Have any buildings or retaining walls on the property been altered, or do you plan to alter them?

There are laws and regulations about how buildings and retaining walls are constructed, which you may wish to investigate to ensure any completed or proposed building work is approved. The local council may be able to give you information about any building permits issued for recent building works done to the property, and what you must do to plan new work. You can also commission a private building surveyor's assessment.

Are any recent building or renovation works covered by insurance?

Ask the vendor if there is any owner-builder insurance or builder's warranty to cover defects in the work done to the property.

Utilities and essential services

Does the property have working connections for water, sewerage, electricity, gas, telephone and internet?

Unconnected services may not be available, or may incur a fee to connect. You may also need to choose from a range of suppliers for these services. This may be particularly important in rural areas where some services are not available.

Buyers' rights

Do you know your rights when buying a property?

The contract of sale and section 32 statement contain important information about the property, so you should request to see these and read them thoroughly. Many people engage a lawyer or conveyancer to help them understand the contracts and ensure the sale goes through correctly. If you intend to hire a professional, you should consider speaking to them before you commit to the sale. There are also important rules about the way private sales and auctions are conducted. These may include a cooling-off period and specific rights associated with 'off the plan' sales. The important thing to remember is that, as the buyer, you have rights.

SALE OF LAND REGULATIONS 2014

SCHEDULE 1

GENERAL RULES FOR THE CONDUCT OF PUBLIC AUCTIONS OF LAND

1. The auctioneer may make one or more bids on behalf of the vendor of the land at any time during the auction.
2. The auctioneer may refuse any bid.
3. The auctioneer may determine the amount by which the bidding is to be advanced.
4. The auctioneer may withdraw the property from sale at any time.
5. The auctioneer may refer a bid to the vendor at any time before the conclusion of the auction.
6. In the event of a dispute concerning a bid, the auctioneer may re-submit the property for sale at the last undisputed bid or start the bidding again.
7. The auctioneer must not accept any bid or offer for a property that made after the property has been knocked down to the successful bidder, unless the vendor or successful bidder at the auction refuses to sign the contract of sale following the auction.
8. If a reserve price has been set for the property and the property is passed in below that reserve price, the vendor will first negotiate with the highest bidder for the purchase of the property.

3. DEVELOPMENT CONTRIBUTIONS

The Owner covenants and agrees:

3.1 Land transfers

3.1.1 the Owner must transfer to or vest in Council the following land:

- the Regional Open Space Land;
- the Road Widening Land; and
- the Easement Land –

in accordance with this Agreement.

3.2 Timing of land transfer

3.2.1 unless Council and the Owner agree on a different timetable, each of the land areas described in clause 3.1.1 of this Agreement must be transferred to or vested in Council:

- within 6 months of the Approval Date; or
- contemporaneously with the registration of a Plan of Subdivision which includes the relevant land area

whichever occurs first;

3.3 Passive Public Open Space

3.3.1 Notwithstanding anything in this Agreement a contribution for Passive Open Space purposes as envisaged under Clause 52.01 of the Planning Scheme must be provided either in cash or as land or as a combination of them generally in accordance with the Passive Open Space identified in the Epping North East Local Structure Plan and the Epping North East Local Structure Plan Development Contributions Plan; and

3.3.2 Where any part of the Passive Open Space Contribution is to be paid in cash, the site value of land for the purpose of ascertaining the required monetary amount of the cash contribution shall be deemed to be \$500,000.00 per hectare.

3.4 Corner Land

3.4.1 that part of the Subject Land which is located on the north west corner of Harvest Home Road and Epping Road comprising an area of not more than 0.5 hectares must be used as a Restaurant as defined in the Land Use Terms clause of the Planning Scheme and for no other purpose. The Owner further acknowledges and agrees that the Corner Land must not be used for a Convenience Restaurant or a Take Away Food Premises as those Land Use Terms are defined in the Planning Scheme as in force at the date of this Agreement.

3.4.2 the design of the Restaurant on the Corner Land should: -

- be architecturally designed and address Epping Road and Harvest Home Road;
- have its car park located behind the Restaurant; and
- where possible, share access point/s with the Regional Open Space Land –

to the satisfaction of Council;

3.5 Lower order infrastructure

nothing in this Agreement affects the obligations of the Owner to provide the Lower Order Infrastructure items described in Schedule 2 which must be provided by the Owner as part of the urban development of the Subject Land.

3.6 Road Widening Land

3.6.1 the defined area of the Road Widening Land is based upon the assumption that the parcel of land in Certificate of Title Volume 6561 Folio 099 has a frontage abutting Harvest Home Road of 404 metres. In the event of a licensed surveyor identifying that assumption to be incorrect the area of the Road Widening Land is to be recalculated by application of the following formula:

14 x length of frontage to Harvest Home Road of the parcel of land in
Certificate of Title Volume 6561 Folio 099 = Road Widening Land area.

- 3.6.2 the recalculated area of the Road Widening Land under clause 3.6.1 is then to be substituted for the area for Road Widening Land as defined in clause 1 of this Agreement.

4. COUNCIL ACKNOWLEDGEMENT

Council acknowledges and agrees:

- 4.1 the transfer or vesting of each of the land areas described in clause 3.1.1 of this Agreement satisfies in full the obligations that would otherwise accrue to the Owner to make development contributions under the approved Epping North East Local Structure Plan Development Contributions Plan and under clause 3 (d) of Section 173 Agreement Registered No. AC707470G other than for passive public open space as referred to in Clause 3.3 of this Agreement;
- 4.2 subject to the final location and design being approved by Council which approval is not to be unreasonably withheld, the Owner may construct roads along and within the north eastern boundary of the Easement Land and lay services across the Easement Land;
- 4.3 that the location of the Regional Open Space Land as shown in the plan at Annexure A is approximate and reflects current expectations of the Council and the Owner and is subject to finalisation in both size and precise location at the time Council is approving the Development Plan for the Subject Land;
- 4.4 after each of the land areas described in clause 3.1.1 has been transferred to or vested in Council the obligation to maintain that Land at all times in a good, tidy and presentable condition will be that of the Council; and
- 4.5 that nothing in this Agreement effects or limits the right of the Owner to receive from Council reimbursement for costs incurred by it when undertaking the construction of any item of infrastructure the provision of which is covered by the Epping North East Local Structure Plan Development Contributions Plan.

If a court, arbitrator, tribunal or other competent authority determines that a word, phrase, sentence, paragraph or clause of this Agreement is unenforceable, illegal or void then it must be severed and the other provisions of this Agreement will remain operative.

9.5 No Fettering of Council's Powers

It is acknowledged and agreed that this Agreement does not fetter or restrict the power or discretion of Council to make any decision or impose any requirements or conditions in connection with the granting of any planning approval or certification of any plans of subdivision applicable to the Subject Land or relating to any use or development of the Subject Land.

The Conditions of Connection must be handed to the Licensed Plumber. Any work which these Conditions of Connection require you to undertake, must be done by a Licensed Plumber, engaged by you, at your cost.

It is the Licensed Plumber's responsibility to ensure that the plumbing and drainage work is completed in accordance with the relevant plumbing regulations and to the satisfaction of the Victorian Building Authority – Plumbing.

Any sewer connection branch and the connecting works must be installed so that they comply, in all respects, with the:

- Plumbing Regulations 1998 (Vic);
 - Water Industry Regulations 2006 (Vic);
 - Building Act 1993 (Vic);
 - Relevant AS/NZS series of standards applicable to sewer connection branch and connecting works from time to time,
- and any other technical requirements which we reasonably specify.

It is the responsibility of the person performing any excavation in a road reserve to obtain a Road Opening Permit from the relevant Authority before any excavation work commences. All traffic management requirements contained in the permit must be complied with.

WATER

General water supply(s) are to be installed as referenced in the table of approval details of this document as required services. The table includes water main and connection details. In a mandated recycled water area recycling connections also apply and are referenced in the same table.

The pressure in this area is above 500kPa or will increase above 500kPa in the future for the potable water connection. A Pressure Limiting Valve (PLV) must be fitted by the Licensed Plumber at the time

of connection.

The pressure in this area is above 500kPa or will increase above 500kPa in the future for the recycled water connection. A Pressure Limiting Valve (PLV) must be fitted by the Licensed Plumber at the time of connection.

For 20mm and 25mm services and all services where a manifold is to be installed, the service pipe, including a meter assembly with a temporary spacer pipe and any relevant backflow device must be installed by the plumber, prior to the time of the tapping or meter installation. Meters are installed by Yarra Valley Waters plumbing contractor. For 32mm and larger services, the meter will be delivered to you and must be installed on the property prior to the tapping. The service pipe must also be installed prior to the tapping. All manifolds are to be located below ground and must be left exposed for Yarra Valley Water's plumbing contractor to inspect prior to installation of the meters. Failure to comply will result in the tapping being cancelled. A rebooking fee will be applicable when rebooking the tapping.

All tapplings, pluggings and metering products can be arranged using easyACCESS. Work must be carried out in accordance with the Water Metering & Servicing Guidelines (see our website). Once all fees have been paid and you are ready to book your plumbing products, please contact Yarra Valley Water's contractor Select Solutions on 1300 724 858. A phone call is not required if products are New Estate Connections or Combo Drinking Water & Recycled Water. Please allow a minimum of 10 business days' notice when contacting Select Solutions.

The dry tapping will be completed within 4 working days of your booking. Please note that if the location of the dry tapping is not suitable, a plug and retap will be required and a fee will apply. Should you wish to reschedule the booking, Yarra Valley Water's plumbing contractor can be contacted on 1300 724 858. If you wish to cancel the booking you will need to contact Yarra Valley Water (if applicable) to seek a refund. A cancellation fee may apply.

Meters are not permitted to be installed in pits unless prior approval has been given by Yarra Valley Water.

Meter assemblies must adhere to the meter installation diagrams available on the Yarra Valley Water website (www.yvw.com.au) to ensure the installations meet the required standard.

REMOVAL OF WATER METERS

Only Yarra Valley Water's plumbing contractor is permitted to remove water meters.

If redevelopment of the site is occurring and the meter is no longer required, a plugging of the service must be arranged and the meter will be collected by our contractor at the time of the plugging.

DAMAGED OR STOLEN METERS

If the builder/plumber damage a meter or meter assembly, it is the responsibility of the builder/plumber to rectify these assets back to the same condition as at time of installation by Yarra Valley Water.

- Failure to do so will result in Yarra Valley Water making the necessary amendments and recovering these costs from the property owner.
- Repeat offences may result in the services being plugged and re-booking fees will apply to have the services reinstated

Stolen meters are to be reported to Yarra Valley Water faults and emergencies:

- Call **13 2762** (24 hrs).
- Replacement of stolen meters can take up to 10 days. If replacement is required more urgently, please advise the operator at the time of the call.

Dear Pollozhani Homes,

APPLICATION FOR BUILD OVER CONDITIONS

Application ID	220146
Property Address	5 MADRID WAY WOLLERT 3750
Service Location ID	5147848

Thank you for your recent application. Based on the information you have supplied, we are pleased to provide you with Build Over conditions for the above property address.

If applicable, an invoice for application fees will be forwarded to you separately.

Yarra Valley Water has imposed conditions on the erection of structures on or near the water and/or sewer assets and/or easement which you need to review carefully. This consent binds the Owner(s) of the land and successors in title and is enforceable under Section 148 of the Water Act 1989. We have placed an encumbrance to this effect on the above property referencing these conditions.

Please note that our imposition of conditions does not affect the rights of any other parties over the area in question.

If there are changes or errors in the details supplied, or we determine that inaccurate information has been provided, this consent may be withdrawn by Yarra Valley Water or additional conditions imposed.

For additional property development information please visit [easyACCESS Land Development Hub](#).

These conditions are for the structures that you have indicated that are to be constructed, as listed below.

Structures
Residential or Habitable Structure

Details of the assets covered by these conditions are shown in the attached asset plans and sewer depth and offset plan for each asset showing its size and average depth as

applicable.

Please refer to the attached Build Over Easement and conditions applicable for each structure relative to asset and or easement on or near your property. The colours on the plans denote the following:

Colour Code	Interpretation	Relevant condition and requirement
Red circled area	Your property's identification on the plan	For information relative to easements and assets
Orange line	Boundary of easement	Generally cannot be built over except as specified below
Red shaded area around assets	Assets and area that cannot be built over	Cannot build within one meter of these assets except if conditions are specified below
Yellow hatched area	Area around the asset and the associated easement, taking into account one meter from the asset or the easement boundary (not shaded) whichever is the greater	Cannot be built over except if conditions are specified below
Green highlighted	Asset or easement that can be built over	Build over is subject to conditions below

The last page of these conditions provides a guide on how to interpret these plans and the application of the specific conditions.

If you have any enquiries please email us at easyaccess@yvw.com.au or visit our website <http://easyaccessknowledgehub.com/> for further information. Alternatively you can contact us on 1300 651 511.

Yours sincerely,

Conditions and definitions that apply under this consent:

Land:

Yarra Valley Water ("YVW") grants its consent to the owner to build a structure or place fill on land over an easement in favour of YVW, over an easement for water supply, sewerage or drainage purposes, or over or within 1 metre of YVW works (referred to as "Owner's Works"), subject to the following terms and conditions:

Standard conditions:

1. A reference in these terms and conditions to YVW includes YVW's employees, agents and contractors.
2. The applicant applying for YVW's consent for the Owner's Works warrants that they made the application as or on behalf of the owner. A reference in these terms and conditions to the owner includes a reference to the applicant or any successors in title to the owner.
3. YVW's conditional consent is to the owner's application and plans for the Owner's Works as previously provided to YVW. The owner must only construct the Owner Works in accordance with YVW's conditions of consent. Any variation to the owner's application and plans or Owner's Works requires a new application to YVW which may be approved or rejected in YVW's absolute discretion.
4. The owner is solely responsible for, and indemnifies and releases and will keep indemnified and released YVW from and against all direct and indirect actions, claims, demands, cost or expenses made, sustained, incurred, brought or prosecuted or in any manner based upon, occasioned by, or attributable to any injury to any person (including illness or death) or loss of or damage to any property which may arise from, or as a result of the Owner's Works, including but not limited to being as a result of the design, construction, placement or presence of the Owner's Works.
5. The owner is solely responsible for, and indemnifies and releases and will keep indemnified and released YVW from and against all direct and indirect actions, claims, demands, cost or expenses made, sustained, incurred, brought or prosecuted or in any manner based upon, occasioned by, or attributable to YVW inspecting, constructing, maintaining, repairing or replacing any assets or other property of YVW beneath or in the vicinity of the Owner's Works except to the extent caused by negligence of YVW.
6. YVW makes no warranty or representation and excludes all liability of any kind for the accuracy, adequacy or completeness of any plans or other information it has provided on sewer, water and other assets. The plans and any asset information accompanying this letter are issued solely as a guide for the investigation and identification of the assets specified and must not be used for

any other purpose, including to identify any property boundaries, dimensions, structures or other assets. The location of all assets must be proven on site prior to the commencement of any works. Due to ongoing potential asset changes the plans or any other information provided should not be reused at a later date and new plans and asset information should be obtained.

7. The owner must complete and ensure the Owner's Works comply with all applicable laws and authorisations.
8. The owner is solely responsible and warrants the structural integrity and sufficiency of the Owner's Works, including any footings, having regard to the presence of YVW's assets and/or easements.
9. The owner permits YVW to enter into and upon the land and structures contained on the land, for the purpose of inspecting, constructing, maintaining, repairing or replacing assets or other property of YVW, and for that purpose to excavate through any part of the Owner's Works. YVW will not repair or reinstate the Owner's Works.
10. YVW's conditions of consent are binding upon all successors in title to the land. The owner must disclose these conditions to all prospective purchasers, mortgagees or other successors in title.
11. A failure to comply with YVW's conditions of consent will invalidate YVW's consent and render the owner liable for penalties pursuant to the Water Act 1989 which may include fines or imprisonment.
12. Should any monies become due to YVW from the owner pursuant to these terms and conditions, the owner must pay such monies within 30 days of receipt of a written notice from YVW.

Specific conditions:

1. Refer to the attached plan 'B' for this structure;
2. The proposed structure cannot be built over the sewer asset. A minimum 600 mm horizontal clearance must be maintained from the outside edge of the sewer main
3. If the proposed structure is to be situated within 750 mm of the sewer main as shown on the attached plan, confirmation of the sewer's actual location may need to be determined by a Yarra Valley Water Representative. If requested, YVW can perform this inspection. Standard fees will apply.
4. Driven Piles are not permitted.
5. Footings / foundations must extend to a minimum depth to the angle of repose to the invert level of the sewer main, to ensure that no additional load will be placed on the sewer by the structure.
6. 24 hour unobstructed access is required.
7. Maximum width allowed for eaves is 600 mm

For any residential or habitable structure in the vicinity of a maintenance hole, the following apply:

1. Refer to the attached plan 'B' for this structure.
2. The proposed structure cannot be built over the sewer asset. A minimum 1000 mm horizontal clearance from the outside edge of the cover surround is required.
3. Footings/foundations must extend to a minimum depth to the angle of repose to the invert level of the sewer main, to ensure that no additional load will be placed on the sewer by the structure.

Multi-unit and single residential, industrial/commercial developments must meet the requirements stated in WSA 02—2014-3.1 Sewerage Code of Australia, Melbourne Retail Water Agencies Edition - Version 2 - Clause 6.4. This may require a sewer branch connection from an existing maintenance structure or a new maintenance structure.

If a new maintenance structure is required you must apply for conditions at Yarra Valley Water, details are available on the Yarra Valley Water website [easyACCESS Land Development Hub](#).

Notes:

These conditions of consent will be disclosed to any person making an application for an information statement in relation to the land pursuant to section 158 of the Water Act 1989.

The advice in this approval letter supersedes any previous written or verbal advice that Yarra Valley Water has provided.

How to interpret the attached plans.

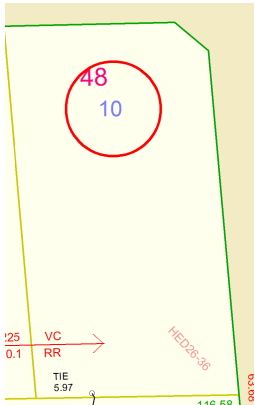

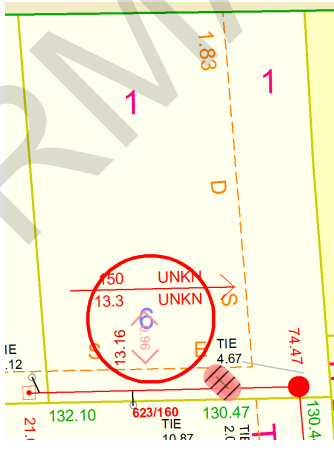

The following information will help you to interpret the build over conditions in this response. You should review this information carefully.

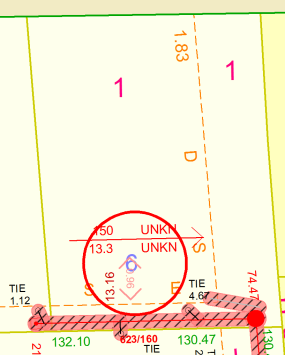

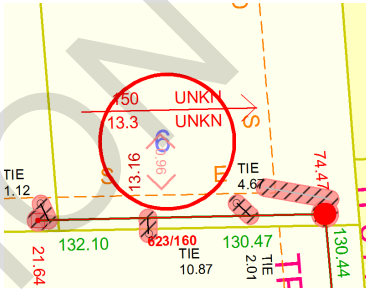

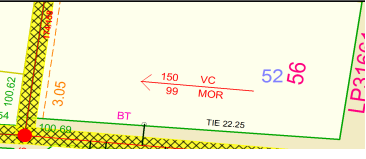

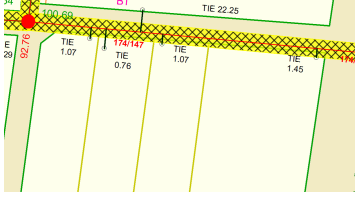

There are three types of plans provided.

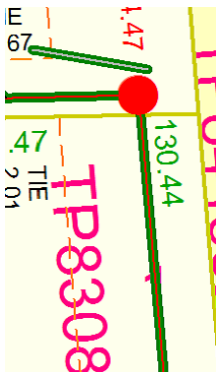

Plan Type	Purpose
Asset Plan	An Asset Plan (sometimes referred to as a Property Asset Plan) shows the water supply pipes and sewer main pipes and associated infrastructure for a property and adjacent properties that are serviced by Yarra Valley Water. These pipes are referred to as 'assets'.
Sewer Depth and Offset (SDO) Plan	<p>A Sewer Depth and Offset (SDO) Plan shows details of sewer main pipes and house connection branches on a property or on nearby properties. There is one of these plans for each relevant asset on or near your property and also any property connection branches.</p> <p>Details include pipe size, pipe material, average depth of sewer mains and depth to the connection point on a house connection branch as shown below.</p> <p>These details allow you to determine which conditions apply to a particular asset as conditions vary depending on the pipes material and depth.</p> <p>This is a Vitreous Clay pipe of 225 mm at an average depth of 3.13 m, less than the key depth of 3.5 meters.</p> <div>ASSET DETAILS Pipe Size: 225 Pipe Material: VC Average Depth (m): 3.13 Note: Offsets denoted in brackets < > are from the title boundary to centreline of pipe. If pipe offset is not shown, it is unknown and will need to be proven on site.</div> <p>Typical sewer types include Vitreous Clay (VC) and Concrete (CONC).</p> <p>Where a sewer type is Unknown (UNK), we assume it is Concrete and apply relevant Concrete asset conditions.</p> <p>The distance of a sewer main from the property boundary (sewer offset) is also shown on the plan when the offset information is available.</p> <p>There is a table of material types shown to the left side of each SDO Plan.</p>

Plan Type	Purpose

Build Over Easement (BOE) Plans	<p>Your build over conditions will reference one or more specific Plans, labelled "A" to "K" depending on the type of structure and the specific conditions.</p> <p>The plan type is referenced as "Plan F" in the example below.</p> <div><div><div><div><div>Yarra Valley Water Buildover Plan Reference: Plan F</div><div><div><div>Address WHITEHORSE ROAD BLACKBURN 3130</div><div><div>Date 20/04/2013</div><div>Scale 400</div></div></div><div><div>  ABN 93 066 902 501</div></div></div><div><div><div><div><small>Disclaimer: This Buildover Plan is for property information only. Yarra Valley Water does not warrant the accuracy or scale of this plan. The company accepts no liability for any loss, damage or injury suffered by any person as a result of an inaccuracy in this plan.</small></div></div></div></div></div></div><p>The address of the plan and the date that the BOE plan has been produced is also illustrated. Scale is provided so you can measure off the plan, in addition to the specific clearances set out in the written conditions.</p><p>The following table sets out how each of the clearances and areas that can or cannot be built over, subject to the conditions, are shown on each Build Over Easement Plan.</p></div></div>

The following table explains how to interpret different symbols and colour coded areas represented in Build Over Easement Plans. Each colour code defines the clearances and areas that can or cannot be built over, subject to the conditions.

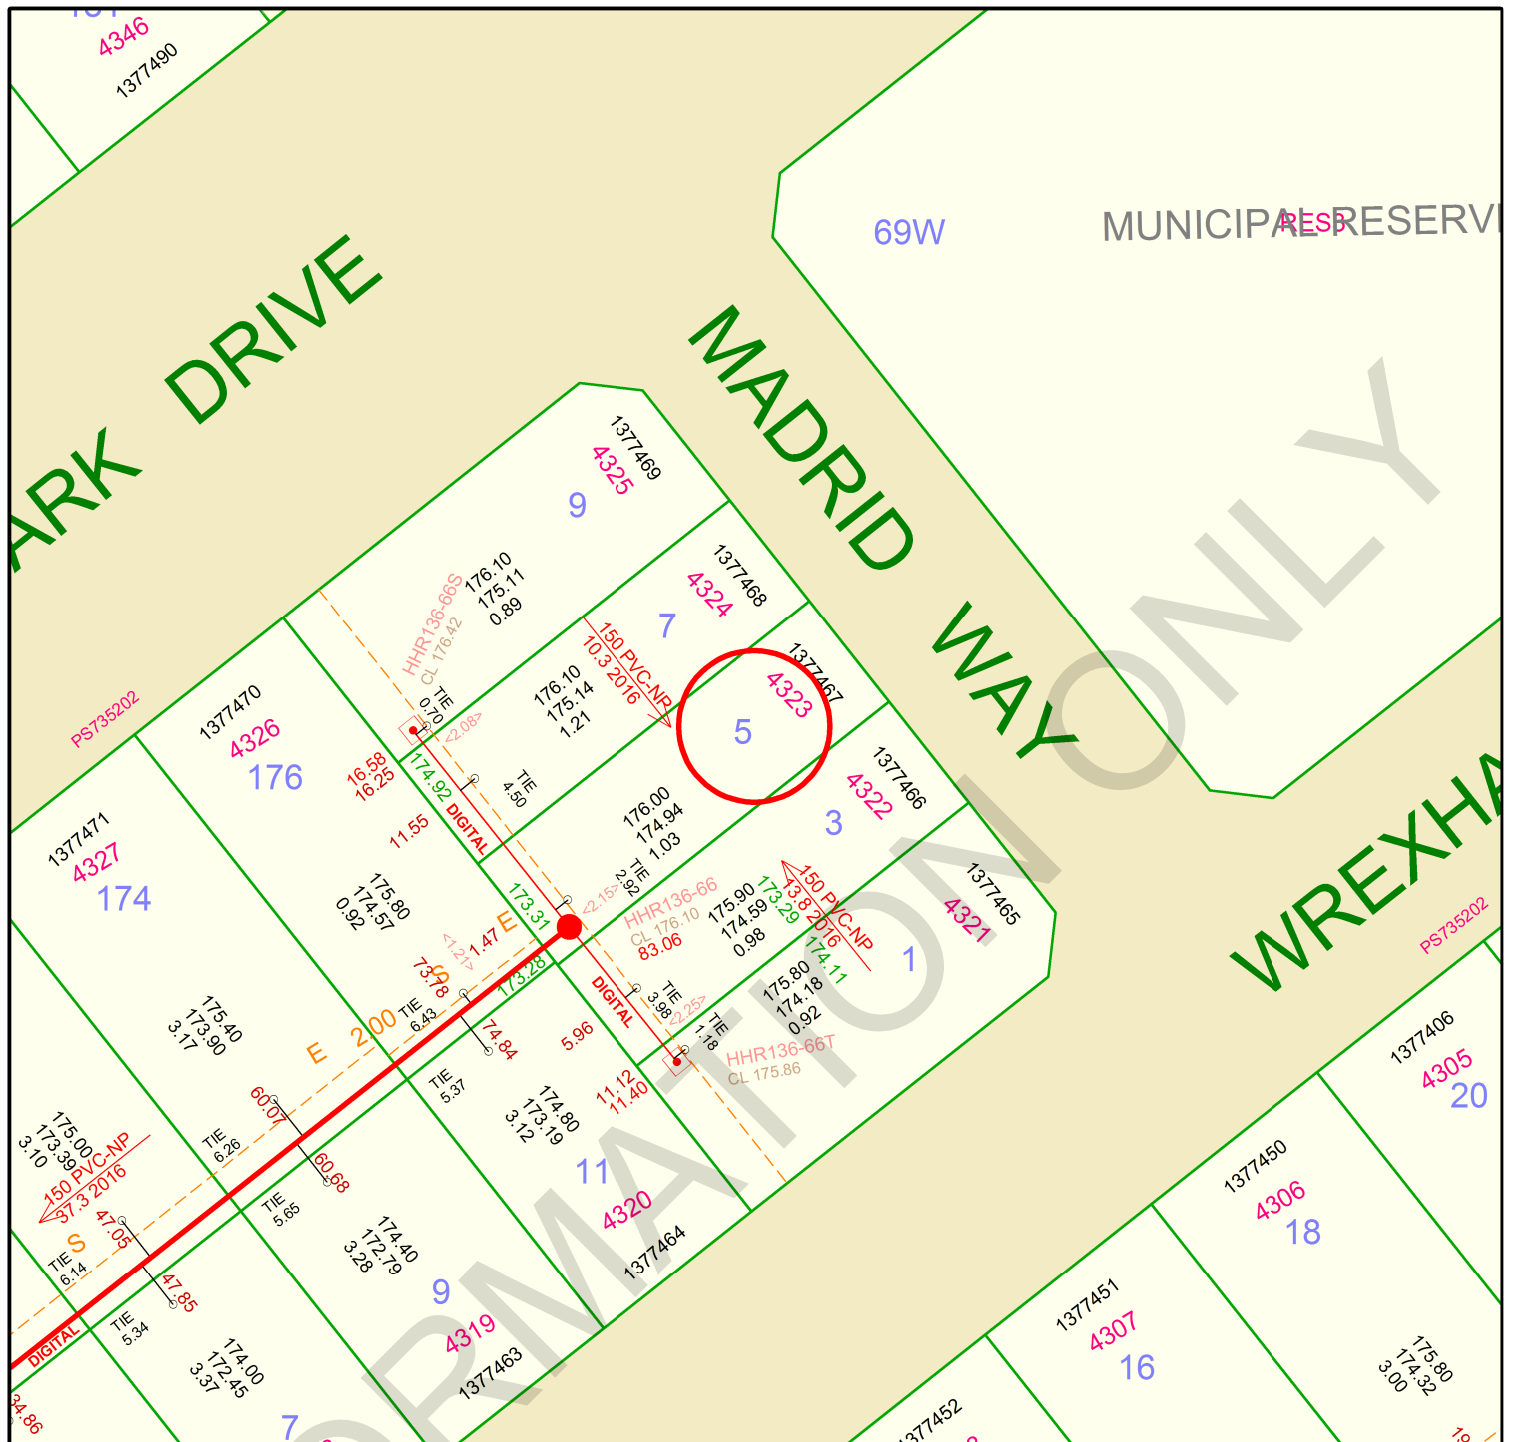

Colour Code	Interpretation	Relevant condition and requirement
Red circled area	<p>Your property's identification on the plan.</p>  <p>The circle in this case highlights '10", the number of the property in the street.</p> <p>This example is a corner block.</p>	<p>For information relative to easements and assets.</p> <p>As noted in this document these conditions are binding on the owner and successors in title of the property.</p> <p>Conditions and a copy of the attached plans are automatically recorded as an encumbrance against this property. It is provided as part of property information in Section 32 searches at the time of sale and purchase.</p>
Orange line	<p>This represents the boundary of the easement as a dotted orange line..</p>  <p>In this case two easements are shown on the property number "6" in this plan. There is one easement labelled 1.83 on the right and another with a sewer asset across the bottom of the plan.</p>	<p>Generally this area cannot be built over except as specified in the conditions related to each structure and plan type. Where assets are shaded yellow the affected area is not just the area covering the asset, but also area to the edge of the easement, whichever is greater.</p>

Colour Code	Interpretation	Relevant condition and requirement
<p>Red shaded area around assets</p> <p>Shown as Condition C on BOE plans</p>	<p>This represents the area and the assets that cannot be built over.</p>  <p>In this case the sewer at the bottom of the property cannot be built over.</p>	<p>Cannot build within one meter of these assets except if the conditions are specified for the structure and plan type above.</p> <p>Depending on the type of structure, this restriction can extend to property connection branches as shown below. Branches that service other properties cannot be built over in any circumstances.</p>  <p>In this example there are four branches near the property, including branches that service other properties.</p>
<p>Yellow hatched area</p> <p>Shown as Condition B on BOE plans</p>	<p>This is the area around the asset and the associated easement, taking into account one meter from the asset or the easement boundary (not shaded) whichever is the greater.</p>  <p>This is an example of where the restricted area is greater based on the easement boundary being wider (shown as 3.05 in the plan).</p>	<p>Cannot be built over except if conditions are specified above.</p> <p>This can include areas not covered by an easement where an asset is within one meter of a property as shown below:</p>  <p>In this case an asset in a lane or on the boundary of a property can restrict what may be constructed.</p>

Colour Code	Interpretation	Relevant condition and requirement
<p>Green highlighted asset</p> <p>Shown as Condition A on BOE plans</p>	<p>This is the area around an asset or easement that can be built over.</p>  <p>The asset here is shown with a green highlight and the branch with simple green line where build over is permitted. In this case the manhole remains red preventing it being built over.</p>	<p>Build over is subject to conditions set out above.</p> <p>Please note property connection branches servicing an adjoining property or multiple lots cannot be built over except if specifically allowed in above conditions for limited structures such as driveways.</p>

The following Build Over Easement plan types will be attached to this document based on the proposed structures, applicable assets and/or easements as follows:

- Plan A - General Structures
- Plan B - Residences & Habitable Structures
- Plan C - Commercial and Industrial Structures
- Plan D - General Structures
- Plan E – Excavation and Landscaping
- Plan F – Driveways and paving
- Plan G – Above ground pools, saunas, spas
- Plan H – Above ground pools, saunas, spas
- Plan I – Below ground pools and basements
- Plan J – Below ground pools, basements poles and towers
- Plan K – Utilities and Property Drains
