Does the council hold details of any development approvals relating to:

- a) commercial or industrial activity at the land; or
- b) a change in the use of the land or part of the land (within the meaning of the repealed Development Act 1993 or the Planning, Development and Infrastructure Act 2016)?

No

Description of the nature of the development(s) approved:

Note—

The question relates to information that the council for the area in which the land is situated may hold. If the council answers "YES" to the question, it will provide a description of the nature of each development approved in respect of the land. The purchaser may then obtain further details from the council (on payment of any fee fixed by the council). However, it is expected that the ability to supply further details will vary considerably between councils.

A "YES" answer to paragraph (a) of the question may indicate that a potentially contaminating activity has taken place at the land (see sections 103C and 103H of the Environment Protection Act 1993) and that assessments or remediation of the land may be required at some future time.

It should be noted that—

- *the approval of development by a council does not necessarily mean that the development has taken place;*
 - *the council will not necessarily be able to provide a complete history of all such development that has taken place at the land.*
-

The information herein is provided pursuant to the Council's obligations under Section 7 of the Land Business (Sales Conveyancing) Act 1994.

Only that information which is required to be provided has been given and that information should not be taken as a representation as to whether or not any other charges or encumbrances affect the subject land.

I, Kellie Parker, Administration Officer of the City of Marion certify that the information provided in these responses is correct.

DECISION NOTIFICATION FORM DEVELOPMENT ACT 1993

TO:	Distinctive Homes 127 Marion Road RICHMOND SA 5033
------------	--

DEVELOPMENT APPLICATION NUMBER: 100/2019/455
DATED: 18/04/2019
REGISTERED ON: 18/04/2019

LOCATION OF PROPOSED DEVELOPMENT
13 Cungena Avenue PARK HOLME 5043 LOT: 192 FP: 11320 CT: 5433/043

DESCRIPTION OF PROPOSED DEVELOPMENT
Detached Dwelling Single Storey and Garage

In respect of this proposed development you are informed that:

NATURE OF DECISION	DECISION	DATE OF DECISION	NUMBER OF CONDITIONS
Development Plan Consent	Granted (Complying Development)	20/3/2019	1
Building Rules Consent	Granted (by Private Certifier)	17/04/2019	3
DEVELOPMENT APPROVAL	Granted	18/04/2019	4

The building classification under the Building Code is Class 1A,10A

Conditions imposed on this approval and the reasons for imposing those conditions are set out in the attached sheet(s). Important information that may affect this consent can also be found under 'NOTES' on the last page of this Decision Notice.

Private Certifier: Building Certification Approvals (SA)

Date: 18 April, 2019

DEVELOPMENT PLAN CONSENT

GRANTED

Complying Development pursuant to Schedule 4 2B of the Development Regulations 2008.

Conditions of Consent:

- (1) The development shall be constructed and maintained in accordance with the plans and details submitted with and forming part of Development Application No.100/455/2019.

BUILDING RULES CONSENT

GRANTED

Conditions of Consent:

Please refer to the attached copy of your Private Certifier's Building Rules Consent for Conditions of Consent (if applicable).

NOTES:

General:

- (1) On completion of building work, the Development Act requires that a signed Statement of Compliance from the licensed builder be provided to the relevant authority declaring that the building work carried out is in accordance with the relevant approvals (pursuant to Regulation 83AB of the Development Regulations 1993).
- (2) Council requires at least one business days' notice of the following stages of building work:
 - a. Prior to the placement of any concrete for footings or other structural purposes. Note where an engineer carries out an inspection, Council will also require a copy of the inspection certificate, and;
 - b. at the completion of wall and roof frames prior to the fixing of any internal linings.

- (3) Before commencing any site works, a temporary vehicular access to the property for machinery, delivery of building materials and general vehicles should be provided. In the case where no driveway invert exists, the kerb can be saw cut and removed at the intended location for the new driveway invert to provide the necessary temporary access. In addition, if a paved Council footpath exists, this should also be removed in alignment with the removed section of kerb. The applicant should also take note of other information provided regarding use of, damage to and construction on Council owned land.

Advisory Note

1. Please note that this Notice has been issued in accordance with Regulation 42(2) of the Development Regulations 2008, on the basis that the private certifier has issued a Certificate of Consistency in accordance with Division 2 clause 92(2)(e) of the Development Regulations 2008. In the event there is an inconsistency, or inconsistencies, Council advises that the plans granted Development Plan Consent take primacy as the approved plans/documents.

Please be advised that in accordance with Regulation 42(4) and 42(5) the plans accompanying the Decision Notification Form have been stamped by the private certifier as the relevant authority.

2. Developers are responsible for providing telecommunications infrastructure in their developments. To provide this infrastructure, you need to contract a carrier to install telecommunications infrastructure in your new development.

Developers can choose any carrier to service their development. If they don't choose another carrier:

- nbn is the Infrastructure Provider of Last Resort for larger developments (100 lots or more), and for all developments in areas where nbn is rolling out.
- Telstra is the Infrastructure Provider of Last Resort for smaller developments (less than 100 lots), until the nbn rolls out in the area.

Developers are asked to apply at least 6 months before the required date of service, to ensure a connection is ready when residents move in.

Mandatory Notifications

Regulation 74 of the Development Regulations 2008 requires the licensed building work contractor or the owner builder responsible for the work to notify Council prior to the commencement or completion of mandatory stages of construction (a notice specifying the mandatory notification stages is attached herein). Further to the requirement to notify, the licensed building work contractor or the owner builder must, no later than 1 business day after the completion of the roof framing, provide the completed Minister's Roof Framing Checklist to Council*. The Minister's Roof Framing Checklist must be completed and signed by a registered building work supervisor who has received specialised training. Failure to comply with the requirements to notify and/or provide the Minister's Roof Framing Checklist could result in a fine of \$500.00 or prosecution.

**(a copy of the Minister's Roof Framing Checklist can be found on the City of Marion website www.marion.sa.gov.au).*

Appeal Rights:

- (1) If you are not satisfied with this decision, there may be a right of appeal to you. Applicants have the right to appeal against a refusal or the imposition of any conditions or requirements on any consent issued, unless the application was for a non-complying kind of development. An appeal by an applicant must be lodged within two (2) months of receiving notice of the decision. Where Category Three public notification was involved, persons who lodged written representations during the formal consultation period, have the right to appeal against any decision made on that application. An appeal by a third party must be lodged within fifteen (15) business days of the date of the decision. All appeals are lodged with the Environment, Resources and Development Court, Sir Samuel Way Building, Victoria Square, Adelaide, telephone: 8204 0300.

Approval Timeframes:

- (1) The proposed development must:
 - be substantially commenced within twelve (12) months from the date full Development Approval is granted; and
 - be completed within three (3) years of full Development Approval being granted, noting that the operative date of any consent or approval is subject to any appeal (where applicable) being finally determined.

IMPORTANT INFORMATION *(Last updated 2/6/05)*

The following matters may influence any consent or approval that has been granted:

- **Other Approvals may be required**

The granting of this consent or approval does not remove the need for the applicant to obtain all other consents that may be required by any other legislation or regulation, encumbrance, land management agreement or similar. It also does not imply that the building will comply with the provisions of the Disability Discrimination Act 1993. The Applicant's attention is particularly drawn to the need to consult electricity suppliers in relation to high voltage power lines and required clearance distances to buildings.

- **Public and Environmental Health**

The Public and Environmental Health Act requires that:

- proper sanitary facilities must be existing and available or be provided to all building sites (i.e. a water flush chemical toilet or toilet connected to sewer or a septic tank);
- an appropriate waste receptacle/enclosure be provided to contain all builders' waste; and
- the site is maintained in a clean condition, free of litter, at all times.

The applicant is advised (and should in turn advise the property owner, builders and all contractors) of their responsibility under the Environment Protection Act 1993 to not harm the environment. Specifically:

- paint, plaster, concrete and brick wastes, and wash waters should not be discharged to the stormwater system or onto land where it is reasonably likely to enter any waters;
- litter should be appropriately stored on site pending removal;
- excavation and site disturbance should be limited, and in particular dust generation should be minimised;
- entry/exit points to the site should be managed to prevent soil being carried off site by vehicles;
- sediment barriers should be used (particularly on sloping sites).

On the spot fines apply for breaches. Further information is available by contacting the EPA on 8204 2000.

- **Works on Council owned land, including footpaths**

The applicant is advised that any works undertaken on Council owned land (including, but not limited to, works relating to crossovers, driveways, footpaths, street trees and stormwater connections) will require the approval of the Council's Infrastructure Department, prior to any works being undertaken. Driveway Access Permit Forms, in particular, must be completed and approved prior to driveway construction occurring. Further information may be obtained by phoning 8375 6600.

Council has requirements for all works that occur in the verge area. In particular, Council requires all redundant driveways to be closed and all new driveways to grade toward the road between the kerb and the front boundary of the property with the level at the front property boundary being between 50mm and 150mm above the top of the kerb, or, as approved by Council.

If damage to kerbs, watertables, footpaths etc is present prior to construction commencing, it is advisable to supply Council with dated photos and measurements of defects; otherwise it will be assumed that all damage was caused during construction. Any damage during construction will be the responsibility of the builder/site owner to remedy. Failure to do so will result in such repairs being carried out by the Council and charged to the builder.

All works on Council owned land required as part of this development are likely to be at the applicant's cost.

Material stockpiles and temporary toilet facilities should all be placed on site and not on the footpath or public roads or reserves. Failure to keep the road reserve clean and suitable for pedestrian and vehicular traffic may result in Council or other agencies taking action under the Local Government Act, the Public and Environmental Health Act, and/or the Environment Protection Act.

- **Other**

Property owners are responsible for notifying Council of any **change in ownership** and/or any **change of property owner's mailing address**. This notification must be received in writing or by facsimile by Council's Rates Department (fax no: 8375 6888). Failure to do so may result in rates notices not being received and fines being imposed.

Existing vegetation to be retained and/or **planting** to occur **in the vicinity of building works** may alter soil conditions and/or affect buildings. The applicant is therefore urged to seek expert advice from suitably qualified persons before designing footings, undertaking construction, and/or planting any vegetation in the vicinity of any building.

The Council has not surveyed the subject land and has, for the purpose of its assessment, assumed that all dimensions and other details provided by the applicant are accurate. It is recommended that the applicant **employ a licensed surveyor** to carry out an identification survey and peg the true boundaries prior to construction commencing. Any discrepancies identified between the dimensions on the approved drawings and the true survey must be reported to the Council for advice on implications on the proposed development. Where a solid wall is proposed on a boundary, it is necessary for any relevant sections of fencing to be removed. It is advisable to gain permission from the adjoining owner(s) before moving or altering any fencing or before using a neighbour's property for access. Owners/applicants should also be aware of their obligations under the Fences Act to notify neighbours before carrying out fencing work on boundaries.

The EPA Information Brochure "Construction Noise" outlines recommended hours of operation outside which noisy activities should not occur. Further information is available by phoning the Environment Protection Authority on 8204 2000.

BUILDING RULES CONSENT NOTES:

PC/286/2019

- Pursuant to the provisions of Section 59 of the Development Act 1993, a licensed building work contractor who is proposing to undertake the work or who is in charge of carrying out the work, or if there is no such licensed building work contractor, the building owner must give the Council:
 - (a) one business days' notice of commencement of building work on the site;
 - (b) any other stage of notification required by Council – Please refer to Council Decision Notification Form for further advice; and
 - (c) one business days' notice of completion of the building work.

The applicant is advised to ensure that those notifications are given.

When the applicant provides notice of commencement of building work, the applicant must also provide to the Council, the name, address and telephone number of the persons who are proposed to sign parts A and B of the “*Statement of Compliance*” under Regulation 83AB.

For the purposes of Regulation 83AB, a licensed building work contractor (the **contractor**) will be taken to be responsible for carrying out building work if the contractor has responsibility for—

- (a) performing the work; or
- (b) engaging another person to perform the work in a situation where the contractor retains overall responsibility for the work, or if there is none, the owner builder.

In accordance with Regulation 74 of the Development Regulations 2008, the person who gives the notice must, within 1 business day after the notice is given, provide to the Council a duly completed supervisor's checklist relating to the roof framing, signed by a registered building work supervisor, being a registered building work supervisor who has undertaken the required training recognised under a scheme approved by the Minister.

A person must not conceal any completed roof framing until after the expiration of 2 clear business days after the notification has been received by the Council.

When the applicant provides notice of commencement of building work, the applicant must also provide to the Council, the name, address and telephone number of the persons who are proposed to sign parts A and B of the “*Statement of Compliance*” under Regulation 83AB.

For the purpose of this note the person proposing to undertake the building work is the licensed building work contractor who is carrying out the work or if there is none, the owner builder.

- In accordance with Development Regulation 83AB a duly completed “*Statement of Compliance*” under Schedule 19A must be provided to Building Certification Approvals (SA) Pty Ltd within 10 business days after a notice of completion with respect to the building work notice is given (refer statement attached). A Class 1a building (or part of the building) has not been previously occupied and the building is occupied before a notice of completion with respect to the building work has been given, a duly completed Statement of Compliance must be provided to the relevant authority under sub regulation (6) within 10 business days after the building (or part) is occupied.

In accordance with the Development Regulations 2008, 83AB (8) “*Part A*” of the Statement must be signed by the licensed building work contractor responsible for carrying out the work or if there is no such person, by a registered building work supervisor or a private certifier and “*Part B*” must be signed by the owner of the relevant land or someone acting on their behalf.

This regulation does not apply to Class 10 buildings or structures.

- **Important:** This approval does not imply compliance, or provides consent with the Electricity Act, 1996 [in relation to minimum clearance distances of power lines adjacent to buildings], the [State] Equal Opportunity Act, 1995, The Work Health and Safety Act & Regulations 2012 including Safe Work Method Statement guidelines relating to working at Heights], Encroachment Act 1944, or with Commonwealth Disability Discrimination Act, 1992 or with any regulations under those Acts or building work on any other property without the consent of the owner. It is the responsibility of the owner, applicant and the person undertaking the building work to ensure compliance with same.

BUILDING RULES CONSENT NOTES:

PC/286/2019

- **Important:** This approval does not imply compliance, or provides consent services regulated by other authorities, including Electricity Act, 1996 [in relation to minimum clearance distances of power lines adjacent to buildings], the [State] Equal Opportunity Act, 1995, The Work Health and Safety Act & Regulations 2012 including Safe Work Method Statement guidelines relating to working at Heights], Encroachment Act 1944, or with Commonwealth Disability Discrimination Act, 1992, gas supply including location of any appliances, water and sewerage or with any standards or regulations under those Acts not referenced by the National Construction Code, or building work on any other property without the consent of the owner. It is the responsibility of the owner, applicant and the person undertaking the building work to ensure compliance with same.
Refer <https://www.sa.gov.au/topics/energy-and-environment/electrical-gas-and-plumbing-safety-and-technical-regulation> for further information.

- The footings have been assessed for compliance with the minimum allowable requirements in accordance with AS 2870.1 & 2. Owners are advised to refer and comply with the Footing Construction Report 'Performance Requirements and Foundation Maintenance' of Appendix B of AS 2870 and is advised to seek advice from the design engineer. The certifier has relied on the soil engineer's assessment of the founding material, site levels and engineer's estimate wind speed.

Particular care should be exercised to ensure that the plumbing and perimeter paving is installed in accordance with the requirements of AS 2870 and the engineers details.

- Structural steel lintels, angles, wall ties, connectors and accessories used in buildings shall be provided with no less than the minimum corrosion protection in accordance with the requirements of AS 4773 Parts 1 & 2 – Masonry for small buildings.
- Structural steel members used in buildings that are not built into walls shall be protected against corrosion in accordance with the requirements of AS 4773 Parts 1 & 2 – Masonry for small buildings.
- The artificial lighting to the new building work shall not exceed the lamp power density or illumination power density allowances nominated in BCA Clause 3.12.5.5 - Artificial Lighting.
- This consent does not include consent for brush fencing, which shall be subject to a separate application for building rules consent prior to the construction of the brush fencing. Building rules consent will be required for brush fencing where construction is proposed for:
 - (a) a brush fence closer than 3 metres to an existing or proposed dwelling, or
 - (b) a dwelling closer than 3 metres to an existing or proposed brush fence.

Minister's Specification SA 76C – Protection of buildings exposed to brush fences outlines how to achieve compliance for brush fencing.

- Roof trusses chord shall be adequately restrained at maximum centres as nominated in the roof truss calculation criteria. Where purlins / battens are used to provide chord restraint and the purlin / batten is discontinued and joined at a truss chord, additional restraint in the form of blocking or similar shall be provided to adequately restrain the truss chord.
- Wet areas are to be constructed in accordance with BCA Vol 2- Part 3.8.1, comply with "AS 3740 Waterproofing of domestic wet areas", and have floor wastes provided in accordance with SA 3.2.2.
- This consent has been issued on the understanding that the design of the roof trusses and bracing systems are based on a certified design and prepared by a person who has been trained in the use of the software and are to be constructed by a licensed manufacturer complying with the requirement of AS1720.1 and AS1649.

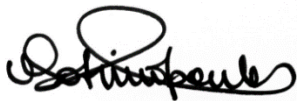

The erection, bracing, nail plating and the installation and of the trusses, including bearing width shall be in accordance with Australian Standard 4440-2004 "Installation of Nail Plated Timber Trusses" and the manufacturers requirements.

BUILDING RULES CONSENT NOTES:

Electricity and Telecommunications Infrastructure - Building Restrictions and Statutory Easements (including those related to gas, water and sewage)

Building restrictions

It is an offence under section 86 of the *Electricity Act 1996* to erect a building or structure within a prescribed distance of aerial or underground powerlines. In some, but not all, cases approval may be obtained from the Technical Regulator. Generally, however, land owners must not build, or alter a building or structure, with the result that any part of the resulting building or structure is within the minimum clearance distance required from certain types of powerlines. These building limitations are set out in the *Electricity (General) Regulations 2012* regulations 81 and 82. Purchasers intending to redevelop the property to be purchased should therefore be aware that the restrictions under the *Electricity Act* and *Regulations* may affect how, or if, they are able to redevelop the property.

In addition, if a building or structure is erected in proximity to a powerline of an electricity entity in contravention of the *Electricity Act*, the entity may seek a court order:

- a) requiring the person to take specified action to remove or modify the building or structure within a specified period;
- b) for compensation from the person for loss or damage suffered in consequence of the contravention; and/or
- c) for costs reasonably incurred by the entity in relocating the powerline or carrying out other work.

Contact the Office of the Technical Regulator in DEM on 8226 5500 for further details.

Statutory easements

Statutory easements for purposes such as (and without limitation) electricity, telecommunications, gas, water and sewage, may also exist, but may not be registered or defined on the title for the land.

Separate from the above building restrictions, South Australia's electricity supply and transmission businesses have statutory easements over land where part of the electricity distribution or transmission system was on, above or under the land as at particular dates specified by legislation.

This notice does not necessarily imply that any statutory or other easement exists.

However, where in existence, statutory easements may provide these organisations and businesses (identified in the relevant legislation) with the right of entry, at any reasonable time, to operate, repair, examine, replace, modify or maintain their equipment, to bring any vehicles or equipment on the land for these purposes, and to install, operate and carry out work on any pipelines, electricity or telecommunications cables or equipment that may be incorporated in, or attached to, their equipment (For example, see Clause 2 of Schedule 1 of the *Electricity Corporations (Restructuring and Disposal) Act 1999*; section 48A of the *Electricity Act 1996*).

For further clarification on these matters, please contact the relevant organisations or businesses, such as SA Power Networks' Easements Branch on telephone 8404 5897 or 8404 5894.

If you intend to excavate, develop or subdivide land, it is suggested that you first lodge a 'Dial Before you Dig' enquiry. Dial Before You Dig is a free referral service that provides information on the location of underground infrastructure. Using the Dial Before you Dig service (<https://1100.com.au>) may mitigate the risk of injury or expense resulting from inadvertent interference with, damage to, or requirement to relocate infrastructure.

Land Tax Act 1936 and Regulations thereunder

Agents should note that the current owner will remain liable for any additional charge accruing due before the date of this certificate which may be assessed on the land and also that the purchaser is only protected in respect of the tax for the financial year for which this certificate is issued. If the change of ownership will not occur on or before the 30th June, another certificate should be sought in respect of the next financial year or requests for certificate should not be made until after 30th June.

Animal and Plant Control (Agriculture Protection and other purposes) Act 1986 and Regulations

Agents should note that this legislation imposes a responsibility on a landholder to control and keep controlled proclaimed plants and particular classes of animals on a property.

Information should be obtained from:

- The vendor about the known presence of proclaimed plants or animals on the property including details which the vendor can obtain from records held by the local animal and plant control board
- The local animal and plant control board or the Animal and Plant Control Commission on the policies and priorities relating to the control of any serious proclaimed plants or animals in the area where the property is located.

Landscape South Australia 2019

Water Resources Management - Taking of underground water

Under the provisions of the *Landscape South Australia Act 2019*, if you intend to utilise underground water on the land subject to this enquiry the following apply:

- A well construction permit accompanied by the prescribed fee is required if a well/bore exceeding 2.5 meters is to be constructed. As the prescribed fee is subject to annual review, you should visit the webpage below to confirm the current fee
- A licensed well driller is required to undertake all work on any well/bore
- Work on all wells/bores is to be undertaken in accordance with the *General specification for well drilling operations affecting water in South Australia*.

Further information may be obtained by visiting <https://www.environment.sa.gov.au/licences-and-permits/water-licence-and-permit-forms>. Alternatively, you may contact the Department for Environment and Water on (08) 8735 1134 or email DEWwaterlicensing@sa.gov.au.

PAYMENT REMITTANCE ADVICE

No payment is required on this Certificate

Please Note:

Please check that the property details shown on this Certificate are correct for the land being sold.

The amount payable on this Certificate is accurate as at the date of issue.

This Certificate is only valid for the financial year shown.

If the change of ownership will occur in the following financial year, you must obtain another Certificate after 30 June.

Payment should be made as part of the settlement process.

The amount payable on this Certificate must be paid in full even if only a portion of the subject land is being sold. RevenueSA cannot apportion the ESL.

If the amount payable is not paid in full, the purchaser may become liable for all of the outstanding ESL as at the date of settlement.

The owner of the land as at 12:01am on 1 July in the financial year of this Certificate will remain liable for any additional ESL accrued before the date of this Certificate, even if the amount payable on this Certificate has been paid.

Provision of this Certificate does not relieve the land owner of their responsibility to pay their Notice of ESL Assessment by the due date.

If the owner of the subject land is receiving an ESL pensioner concession but was not living in the property as their principal place of residence as at 12:01am on 1 July of the current financial year, or is now deceased, you must contact RevenueSA prior to settlement.

The amount payable on this Certificate must be paid in full even if only a portion of the subject land is being sold. RevenueSA cannot apportion the land tax.

If the amount payable is not paid in full on or before the due date shown on this Certificate, the purchaser will not be released from liability of the whole amount of the land tax outstanding as at the date of settlement.

The owner of the land as at midnight on 30 June immediately before the financial year of this Certificate will remain liable for any additional land tax accrued before the date of this Certificate, even if the amount payable on this Certificate has been paid.

The amount payable on this Certificate is the land tax payable at the date of issue. However, land tax for a particular financial year may be reassessed at any time, changing the amount payable.

Should a reassessment occur after this Certificate has been paid in full, the purchaser will remain indemnified and will not be responsible for payment of the new land tax payable amount. The owner at the beginning of the relevant financial year will be responsible for payment of any additional land tax payable.

Should a reassessment occur after this Certificate has been issued but not paid in full, the purchaser will not be indemnified and may become responsible for payment of the new land tax payable amount.

Should a reassessment occur after this Certificate has been paid in full and the Certificate is subsequently updated, the purchaser will not be indemnified and may become responsible for payment of the new land tax payable amount.

Provision of this Certificate does not relieve the land owner of their responsibility to pay their Notice of Land Tax Assessment by the due date.
