Due Diligence Checklist

What you need to know before buying a residential property

Before you buy a home, you should be aware of a range of issues that may affect that property and impose restrictions or obligations on you, if you buy it. This checklist aims to help you identify whether any of these issues will affect you. The questions are a starting point only and you may need to seek professional advice to answer some of them. You can find links to organisations and web pages that can help you learn more, by visiting [consumer.vic.gov.au/due diligence checklist](https://consumer.vic.gov.au/due-diligence-checklist).

Urban living

Moving to the inner city?

High density areas are attractive for their entertainment and service areas, but these activities create increased traffic as well as noise and odours from businesses and people. Familiarising yourself with the character of the area will give you a balanced understanding of what to expect.

Is the property subject to an owners corporation?

If the property is part of a subdivision with common property such as driveways or grounds, it may be subject to an owners corporation. You may be required to pay fees and follow rules that restrict what you can do on your property, such as a ban on pet ownership.

Growth areas

Are you moving to a growth area?

You should investigate whether you will be required to pay a growth areas infrastructure contribution.

Flood and fire risk

Does this property experience flooding or bushfire?

Properties are sometimes subject to the risk of fire and flooding due to their location. You should properly investigate these risks and consider their implications for land management, buildings and insurance premiums.

Rural properties

Moving to the country?

If you are looking at property in a rural zone, consider:

- Is the surrounding land use compatible with your lifestyle expectations? Farming can create noise or odour that may be at odds with your expectations of a rural lifestyle.
- Are you considering removing native vegetation? There are regulations which affect your ability to remove native vegetation on private property.
- Do you understand your obligations to manage weeds and pest animals?
- Can you build new dwellings?
- Does the property adjoin crown land, have a water frontage, contain a disused government road, or are there any crown licences associated with the land?

Is there any earth resource activity such as mining in the area?

You may wish to find out more about exploration, mining and quarrying activity on or near the property and consider the issue of petroleum, geothermal and greenhouse gas sequestration permits, leases and licences, extractive industry authorisations and mineral licences.

Soil and groundwater contamination

Has previous land use affected the soil or groundwater?

You should consider whether past activities, including the use of adjacent land, may have caused contamination at the site and whether this may prevent you from doing certain things to or on the land in the future.

Land boundaries

Do you know the exact boundary of the property?

You should compare the measurements shown on the title document with actual fences and buildings on the property, to make sure the boundaries match. If you have concerns about this, you can speak to your lawyer or conveyancer, or commission a site survey to establish property boundaries.

Planning controls

Can you change how the property is used, or the buildings on it?

All land is subject to a planning scheme, run by the local council. How the property is zoned and any overlays that may apply, will determine how the land can be used. This may restrict such things as whether you can build on vacant land or how you can alter or develop the land and its buildings over time.

The local council can give you advice about the planning scheme, as well as details of any other restrictions that may apply, such as design guidelines or bushfire safety design. There may also be restrictions – known as encumbrances – on the property's title, which prevent you from developing the property. You can find out about encumbrances by looking at the section 32 statement.

Are there any proposed or granted planning permits?

The local council can advise you if there are any proposed or issued planning permits for any properties close by. Significant developments in your area may change the local 'character' (predominant style of the area) and may increase noise or traffic near the property.

Safety

Is the building safe to live in?

Building laws are in place to ensure building safety. Professional building inspections can help you assess the property for electrical safety, possible illegal building work, adequate pool or spa fencing and the presence of asbestos, termites, or other potential hazards.

Building permits

Have any buildings or retaining walls on the property been altered, or do you plan to alter them?

There are laws and regulations about how buildings and retaining walls are constructed, which you may wish to investigate to ensure any completed or proposed building work is approved. The local council may be able to give you information about any building permits issued for recent building works done to the property, and what you must do to plan new work. You can also commission a private building surveyor's assessment.

Are any recent building or renovation works covered by insurance?

Ask the vendor if there is any owner-builder insurance or builder's warranty to cover defects in the work done to the property.

Utilities and essential services

Does the property have working connections for water, sewerage, electricity, gas, telephone and internet?

Unconnected services may not be available, or may incur a fee to connect. You may also need to choose from a range of suppliers for these services. This may be particularly important in rural areas where some services are not available.

Buyers' rights

Do you know your rights when buying a property?

The contract of sale and section 32 statement contain important information about the property, so you should request to see these and read them thoroughly. Many people engage a lawyer or conveyancer to help them understand the contracts and ensure the sale goes through correctly. If you intend to hire a professional, you should consider speaking to them before you commit to the sale. There are also important rules about the way private sales and auctions are conducted. These may include a cooling-off period and specific rights associated with 'off the plan' sales. The important thing to remember is that, as the buyer, you have rights

Designated Bushfire Prone Areas

This property is in a designated bushfire prone area. Special bushfire construction requirements apply to the part of the property mapped as a designated bushfire prone area (BPA). Planning provisions may apply.

Where part of the property is mapped as BPA, if no part of the building envelope or footprint falls within the BPA area, the BPA construction requirements do not apply.

Note: the relevant building surveyor determines the need for compliance with the bushfire construction requirements.

Designated BPA are determined by the Minister for Planning following a detailed review process. The Building Regulations 2018, through adoption of the Building Code of Australia, apply bushfire protection standards for building works in designated BPA.

Designated BPA maps can be viewed on VicPlan at <https://mapshare.vic.gov.au/vicplan/> or at the relevant local council.

Commissioner of State Revenue

| | |

| CAPITAL IMP VALUE: | \$800,000 |
| SITE VALUE: | \$525,000 |
| AMOUNT PAYABLE: | \$0.00 |

Notes to Certificates Under Section 95AA of the *Taxation Administration Act 1997*

Certificate No: 62442202

Power to issue Certificate

1. The Commissioner of State Revenue can issue a Property Clearance Certificate (Certificate) to an owner, mortgagee or bona fide purchaser of land who makes an application specifying the land for which the Certificate is sought and pays the application fee.

Amount shown on Certificate

2. The Certificate shows any land tax (including Vacant Residential Land Tax, interest and penalty tax) that is due and unpaid on the land described in the Certificate at the date of issue. In addition, it may show:
 - Land tax that has been assessed but is not yet due,
 - Land tax for the current tax year that has not yet been assessed, and
 - Any other information that the Commissioner sees fit to include, such as the amount of land tax applicable to the land on a single holding basis and other debts with respect to the property payable to the Commissioner.

Land tax is a first charge on land

3. Unpaid land tax (including Vacant Residential Land Tax, interest and penalty tax) is a first charge on the land to which it relates. This means it has priority over any other encumbrances on the land, such as a mortgage, and will continue as a charge even if ownership of the land is transferred. Therefore, a purchaser may become liable for any such unpaid land tax.

Information for the purchaser

4. If a purchaser of the land described in the Certificate has applied for and obtained a Certificate, the amount recoverable from the purchaser cannot exceed the 'amount payable' shown. A purchaser cannot rely on a Certificate obtained by the vendor.

Information for the vendor

5. Despite the issue of a Certificate, the Commissioner may recover a land tax liability from a vendor, including any amount identified on this Certificate.

General information

6. A Certificate showing no liability for the land does not mean that the land is exempt from land tax. It means that there is nothing to pay at the date of the Certificate.
7. An updated Certificate may be requested free of charge via our website, if:
 - The request is within 90 days of the original Certificate's issue date, and
 - There is no change to the parties involved in the transaction for which the Certificate was originally requested.

For Information Only

LAND TAX CALCULATION BASED ON SINGLE OWNERSHIP

Land Tax = \$825.00

Taxable Value = \$525,000

General Term & Conditions:

This report is provided, pursuant to the following Acts and their subordinate legislation as they apply in their respective states:
The Building Act 1993 (VIC)

The Home Building Act 1989 (NSW)

The Home Building Contracts Act 1991 (WA)

Selling a house built or renovated by an owner builder

Before entering into a contract to sell a house which has been built or renovated by a person other than a registered building practitioner, where the works have been completed for less than 6 years (7yrs NSW) prior to the date of sale, the owner builder must:

1. Obtain this Inspection Report. It must be provided to the intended purchaser by the owner builder. The Inspection Report must not be older than six (6) months old at the date of the contract.
2. Send to an approved insurer:
 - a completed 'Application for Owner Builder's Indemnity Insurance',
 - a copy of this Inspection Report,
 - the appropriate fee – confirm the fee with the insurer.

If all items are in order, the insurer will send you the necessary certificate or schedule of insurance.
3. Provide evidence of the insurance to the intended purchaser.
4. Ensure your contract contains the warranties listed in the shaded section below. After the contract has been signed, the owner builder must send a copy of the contract to the insurer.

If a contract of sale has been entered into in contravention of the legislation, the contract is not void by reason only of the contravention but is voidable at the option of the purchaser at any time before the completion of the contract.

The insurance is applicable to structural works done by the owner builder which have been completed for less than 6 years (7yrs NSW) prior to the date of sale. The insurance ceases for structural works when that 6 year (7yrs NSW) period expires.

*The insurance ceases in 2 years for nonstructural works.

The insurance only covers defects caused by the owner builder and does not cover any defects identified in the report.

Please note that where the owner builder has renovated or extended the home, the insurance only relates to those works. The balance of the house is not covered by this insurance at all.

Defects identified in this Report are those caused by bad workmanship or movement of foundations. This report does not necessarily refer to routine maintenance items (e.g. hair-line plaster cracks or jamming doors and windows) which are caused by normal shrinkage providing the workmanship was not defective.

Serious defects are defects which seriously affect the structural integrity of the property or require the substantial replacement of plumbing or electrical services. In the case of cracking, serious defects denote severe cracking as defined by Category 4 Appendix A – Australian Standard AS 2870.1 – 1988.

Unless otherwise stated:

- no soil or other material has been excavated or removed,
- no plants or trees have been removed
- no samples have been taken or tested,
- no fixtures, fittings, cladding or lining materials have been removed,
- building services have not been tested,
- no items of furniture or chattels have been moved,

- no plans, specifications or other contract documents have been sighted for the purpose of inspecting the dwelling house and providing this report,
- no special investigation of insect attack (e.g. borer, termite, etc.) has been made and any reference to this has been based on casual inspection.

This report is incomplete unless the required local government building approval and inspection summary details are attached.
