Electricity and Telecommunications Infrastructure - Building Restrictions and Statutory Easements (including those related to gas, water and sewage)

Building restrictions

It is an offence under section 86 of the *Electricity Act 1996* to erect a building or structure within a prescribed distance of aerial or underground powerlines. In some, but not all, cases approval may be obtained from the Technical Regulator. Generally, however, land owners must not build, or alter a building or structure, with the result that any part of the resulting building or structure is within the minimum clearance distance required from certain types of powerlines. These building limitations are set out in the *Electricity (General) Regulations 2012* regulations 81 and 82. Purchasers intending to redevelop the property to be purchased should therefore be aware that the restrictions under the *Electricity Act* and *Regulations* may affect how, or if, they are able to redevelop the property.

In addition, if a building or structure is erected in proximity to a powerline of an electricity entity in contravention of the *Electricity Act*, the entity may seek a court order:

- a) requiring the person to take specified action to remove or modify the building or structure within a specified period;
- b) for compensation from the person for loss or damage suffered in consequence of the contravention; and/or
- c) for costs reasonably incurred by the entity in relocating the powerline or carrying out other work.

Contact the Office of the Technical Regulator in DEM on 8226 5500 for further details.

Statutory easements

Statutory easements for purposes such as (and without limitation) electricity, telecommunications, gas, water and sewage, may also exist, but may not be registered or defined on the title for the land.

Separate from the above building restrictions, South Australia's electricity supply and transmission businesses have statutory easements over land where part of the electricity distribution or transmission system was on, above or under the land as at particular dates specified by legislation.

This notice does not necessarily imply that any statutory or other easement exists.

However, where in existence, statutory easements may provide these organisations and businesses (identified in the relevant legislation) with the right of entry, at any reasonable time, to operate, repair, examine, replace, modify or maintain their equipment, to bring any vehicles or equipment on the land for these purposes, and to install, operate and carry out work on any pipelines, electricity or telecommunications cables or equipment that may be incorporated in, or attached to, their equipment (For example, see Clause 2 of Schedule 1 of the *Electricity Corporations (Restructuring and Disposal) Act 1999*; section 48A of the *Electricity Act 1996*).

For further clarification on these matters, please contact the relevant organisations or businesses, such as SA Power Networks' Easements Branch on telephone 8404 5897 or 8404 5894.

If you intend to excavate, develop or subdivide land, it is suggested that you first lodge a 'Dial Before you Dig' enquiry. Dial Before You Dig is a free referral service that provides information on the location of underground infrastructure. Using the Dial Before you Dig service (<https://1100.com.au>) may mitigate the risk of injury or expense resulting from inadvertent interference with, damage to, or requirement to relocate infrastructure.

Land Tax Act 1936 and Regulations thereunder

Agents should note that the current owner will remain liable for any additional charge accruing due before the date of this certificate which may be assessed on the land and also that the purchaser is only protected in respect of the tax for the financial year for which this certificate is issued. If the change of ownership will not occur on or before the 30th June, another certificate should be sought in respect of the next financial year or requests for certificate should not be made until after 30th June.

Animal and Plant Control (Agriculture Protection and other purposes) Act 1986 and Regulations

Agents should note that this legislation imposes a responsibility on a landholder to control and keep controlled proclaimed plants and particular classes of animals on a property.

Information should be obtained from:

- The vendor about the known presence of proclaimed plants or animals on the property including details which the vendor can obtain from records held by the local animal and plant control board
- The local animal and plant control board or the Animal and Plant Control Commission on the policies and priorities relating to the control of any serious proclaimed plants or animals in the area where the property is located.

Landscape South Australia 2019

Water Resources Management - Taking of underground water

Under the provisions of the *Landscape South Australia Act 2019*, if you intend to utilise underground water on the land subject to this enquiry the following apply:

- A well construction permit accompanied by the prescribed fee is required if a well/bore exceeding 2.5 meters is to be constructed. As the prescribed fee is subject to annual review, you should visit the webpage below to confirm the current fee
- A licensed well driller is required to undertake all work on any well/bore
- Work on all wells/bores is to be undertaken in accordance with the *General specification for well drilling operations affecting water in South Australia*.

Further information may be obtained by visiting <https://www.environment.sa.gov.au/licences-and-permits/water-licence-and-permit-forms>. Alternatively, you may contact the Department for Environment and Water on (08) 8735 1134 or email DEWwaterlicensing@sa.gov.au.

DEVELOPMENT APPLICATION NUMBER: 100/1101/2012
APPLICANT: Oakford Homes
LOCATION: 67 Brooklyn Drive HALLETT COVE 5158
Lot: 74 DP: 88660 CT: 6094/091
DESCRIPTION OF DEVELOPMENT: A single storey detached dwelling,
incorporating a garage wall on the eastern side
boundary
DECISION: Development Approval Granted
DATE OF DECISION: 07/12/2012

DEVELOPMENT PLAN CONSENT

GRANTED

Reasons For Decision:

Consent is granted as the proposed development is considered to accord sufficiently with the provisions of the Development Plan.

The following conditions have been imposed to reasonably ensure that the development will not impair the orderly and proper planning of the locality or detrimentally affect the amenity of the locality, having particular regard to the Objectives and Principles of Development Control applicable to such a use in the locality.

Conditions of Consent:

- (1) The development shall be constructed and maintained in accordance with the plans and details submitted with and forming part of Development Application No.100/1101/2012 (being the site plan and Herriot plan received by Council on the 13/09/2012 and the floor plans and elevations prepared by Oakford Homes and received by Council on 10/07/2012) except when varied by the following conditions of consent.
- (2) All car parking areas, driveways and vehicle manoeuvring areas must be constructed, sealed and drained in accordance with recognised engineering practices prior to the occupation of the premises or the use of the development herein approved.
- (3) Where the driveway crosses the front boundary, the finished ground level shall be between 50mm and 150mm above the top of kerb.

- (4) All mortar joints on any face brickwork on the property boundary are to be finished in a professional manner, similar to other external brickwork on the subject dwelling.
- (5) All stormwater from buildings and paved areas shall be disposed of in accordance with the approved plans and details prior to the occupation of the premises to the reasonable satisfaction of the Council.
- (6) The stormwater collection and disposal system shall be connected to the street watertable (inclusive of any system that connects to the street watertable via detention or rainwater tanks) immediately following roof completion and gutter and downpipe installation.
- (7) Stormwater must be disposed of in such a manner that does not flow or discharge onto land of adjoining owners, lie against any building or create insanitary conditions.

BUILDING RULES CONSENT

GRANTED

Conditions of Consent:

Please refer to the attached copy of your Private Certifier's Building Rules Consent for Conditions of Consent (if applicable).

NOTES:

General:

- (1) The applicant is reminded that Development Approval from the Council is required for any retaining wall over one metre in height, any masonry fence over one metre in height, any non-masonry fence (e.g. colorbond, wood paling, brush etc) over 2.1 metres in height, and any retaining wall with a fence on top with a total height over 2.1 metres in height (measured from the lower of the two adjacent ground levels).
- (2) Noise from devices and/or activities on the subject site should not impair or impinge on the amenity of neighbours at any time. The Environment Protection Authority has restrictions relating to the control of noise in the urban environment. Further information is available by phoning the Environment Protection Authority on 8204 2000.

- (3) Before commencing any site works, a temporary vehicular access to the property for machinery, delivery of building materials and general vehicles should be provided. In the case where no driveway invert exists, the kerb can be saw cut and removed at the intended location for the new driveway invert to provide the necessary temporary access. In addition, if a paved Council footpath exists, this should also be removed in alignment with the removed section of kerb. The applicant should also take note of other information provided regarding use of, damage to and construction on Council owned land.
- (4) Dust emissions from the site during construction shall be controlled by a dust suppressant or by watering regularly to the reasonable satisfaction of the Council.
- (5) All runoff and stormwater from the subject site during the construction phase must be either contained on site or directed through a temporary sediment trap or silt fence, prior to discharge to the stormwater system, to the reasonable satisfaction of the Council. (Acceptable ways of controlling silt and runoff during construction can be found in the Stormwater Pollution Prevention Code of Practice issued by the Environment Protection Authority).
- (6) Measures to prevent silt and mud from vehicle tyres and machinery being transported onto the road shall be installed and maintained at all times during the construction phase of the development, to the reasonable satisfaction of the Council. (A suggested measure is to install a gravelled construction exit with wash down facilities).
- (7) The proposed crossover/access must be constructed a minimum of one (1) metre clear of all infrastructure, at its closest point, including but not limited to, street trees, stobie poles, SEP's, pram ramps etc.
- (8) Any portion of Council's infrastructure damaged as a result of work undertaken on the allotment or associated with the allotment must be repaired/reinstated to Council's satisfaction at the developer's expense.
- (9) Before commencing any site works, a temporary vehicular access to the property for machinery, delivery of building materials and general vehicles should be provided. In the case where no driveway invert exists, the kerb can be saw cut and removed at the intended location for the new driveway invert to provide the necessary temporary access. In addition, if a paved Council footpath exists, this should also be removed in alignment with the removed section of kerb. The applicant should also take note of other information provided regarding use of, damage to and construction on Council owned land.

- (10) In assessing your application it has been determined that it is likely that you will be undertaking work that may affect the stability of adjoining land. Section 60 of the Development Act 1993 and Regulation 75 of the Development Regulations 2008, prescribe that your neighbour has a right to be notified by you 28 days prior to you undertaking that work. This is to enable your neighbour to obtain a report for which you are obliged to pay, that specifies any work that is required to be undertaken to ensure the stability of your neighbour's property is maintained during and following the undertaking of the work you propose. You should make yourself aware of these requirements before proceeding.
- (11) Council requires at least one business days notice of the following stages of building work:-
- a) prior to the placement of any concrete for footings or other structural purposes (Note - Where an engineer carries out an inspection, Council will also require a copy of the inspection certificate); and
 - b) at the completion of wall and roof frames prior to the fixing of any internal linings.
- (12) On completion of building work, the Development Act requires that a signed Statement of Compliance from the licensed builder be provided to the relevant authority declaring that the building work carried out is in accordance with the relevant approvals (pursuant to Regulation 83AB of the Development Regulations 2008).

Mandatory Notifications

Regulation 74 of the Development Regulations 2008 requires the licensed building work contractor or the owner builder responsible for the work to notify Council prior to the commencement or completion of mandatory stages of construction (a notice specifying the mandatory notification stages is attached herein). Further to the requirement to notify, the licensed building work contractor or the owner builder must, no later than 1 business day after the completion of the roof framing, provide the completed Minister's Roof Framing Checklist to Council*. The Minister's Roof Framing Checklist must be completed and signed by a registered building work supervisor who has received specialised training. Failure to comply with the requirements to notify and/or provide the Minister's Roof Framing Checklist could result in a fine of \$500.00 or prosecution.

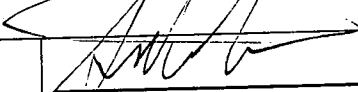

*(a copy of the Minister's Roof Framing Checklist can be found on the City of Marion website www.marion.sa.gov.au).

Appeal Rights:

- (1) If you are not satisfied with this decision, there may be a right of appeal to you. Applicants have the right to appeal against a refusal or the imposition of any conditions or requirements on any consent issued, unless the application was for a non-complying kind of development. An appeal by an applicant must be lodged within two (2) months of receiving notice of the decision. Where Category Three public notification was involved, persons who lodged written representations during the formal consultation period, have the right to appeal against any decision made on that application. An appeal by a third party must be lodged within fifteen (15) business days of the date of the decision. All appeals are lodged with the Environment, Resources and Development Court, Sir Samuel Way Building, Victoria Square, Adelaide, telephone: 8204 0300.

Approval Timeframes:

- (1) The proposed development must:
- be substantially commenced within twelve months from the date full Development Approval is granted; and
 - be completed within three years of full Development Approval being granted
- noting that the operative date of any consent or approval, is subject to any appeal where applicable being finally determined.

- be provided with top and bottom chord bracing in accordance with AS4440 and the manufacturer's specification,
- be transported stored, erected and installed in accordance with AS4440 and the manufacturer's specification

BCA-P2.1

Notes

The certified drawings/ documents will be issued by the Council with the notification of development approval.

The person proposing to undertake building work (or who is in charge of such work) is warned of their obligation to give the Council notice at stages prescribed in Regulation 74. These include 1 business days notice of :-

- intended commencement of building work. Notice must include information on the persons who are proposed to sign the Regulation 83AB Statement of Compliance (where applicable),
- completion of all roof framing. Notice must be accompanied within 1 business day by a completed registered building work supervisors checklist relating to the roof framing and the subject roof framing must not be concealed for 2 business days,
- completion of building work, and
- other stages specified by Council

Regulation 83AB requires a Statement of Compliance for Class 1a buildings to be provided upon completion to the relevant authority by

- the licensed building work contractor who has carried out the relevant work, or who was in charge of carrying out the relevant work to which the statement relates, or
- if there is no such licensed building work contractor, such as where the relevant work is to be carried out by an owner builder, by a registered building work supervisor or private certifier in accordance with the attached pro-forma, which must also be signed by the owner of the relevant land, or by someone acting on his or her behalf.

A person must not occupy a Class 1a building under the Building Code (or an addition to a Class 1a building) that has been completed in accordance with the development authorisation insofar as it relates to the performance of building work unless it complies with the requirements prescribed in Regulation 83A.

Set-off dimensions shall be from the allotment boundaries and not necessarily the fence lines.

No portion of the building or structure (including footings and drainage) shall extend over the property boundary **A boundary survey by a licensed land surveyor is recommended when building to the boundary**

For building work prescribed in regulation 75, the building owner, must, at least 28 days before the building work is commenced cause to be served on the owner of the affected land or premises a notice of intention to perform the building work and the nature of that work, as required by Section 60.

A retaining wall less than 1000 mm high on the site boundary is pursuant to Schedule 3 deemed *not* to be *development* however under the provisions of Section 60 and Regulation 75 the associated excavation/ filling is deemed to be building work which affects the stability of the adjoining land and requires notice to be served on the adjoining owner.

The building levels and the location, design and capacity of the stormwater discharge at the property alignment should be approved by council prior to siteworks commencing. The drainage system should be completed by the finish of construction of the building. (Clause 5.5.3 of AS 2870)

The method of stormwater disposal must not result in the entry of water into any building or on to the land of any adjoining owner

A sealed stormwater system will require inspection points at strategic locations to allow for ease of ongoing maintenance. The location and design of the points should be discussed with the design engineer to ensure maximum efficiency.

The required rainwater tanks to be plumbed into the dwelling in accordance with AS3500 must be provided with an overflow device connected into the stormwater disposal system and mosquito proof, non-degradable screens on the inlet and overflow.
Supporting structures must be a proprietary product and / or comply with relevant Australian Standards

AS3660.1- 'Termite Management - New Building Work', sets out methods for minimising the risk to new buildings from damage to their structural members by subterranean termites by deterring concealed entry by termites from the soil to the building. A termite barrier system constructed in accordance with this standard can not prevent termite attack, as barriers may be bridged or breached. Where termites bridge barriers the evidence may be detected during inspections which need to be carried out at intervals not exceeding 12 months to reduce the risk of termite damage. A durable notice shall be permanently fixed to the building in a prominent location such as a meter box or the like indicating the method of protection; and the date of installation of the system; and where a chemical barrier is used, its life expectancy as listed on the National Registration Authority label; and the need to maintain and inspect the system on a regular basis. The owner may also wish to seek advice regarding the potential for attack by termites to non-primary structural elements of the building and the precautions available.

Building work adjacent to a property boundary is proposed and this may compromise the effectiveness of the termite barrier. Documentation on the limitations of the termite barrier installed in this regard should be provided to the building owner.

Prior to manufacture, the person who is engaged to manufacture the roof trusses must furnish the council and the person responsible for the subject building work with the information required by the Ministers Schedule 5 roof framing checklist. Where these truss details differ to those approved with this consent, the amended details should also be forwarded to this office for approval.

The timber roof trusses shall be transported, stored, erected, lifted, handled, installed and braced in accordance with roof truss design requirements, AS4440, the manufacturers specifications and good trade practice. Particular attention should be paid to the co-ordination of trades to ensure that chord and web restraints are provided in accordance with the truss design parameters and the top and bottom chords are restrained and braced in accordance with AS4440 and the manufacturers specifications

The roof trusses shall be stored, erected, installed and braced in accordance with AS4440, the manufacturers specifications and good trade practice. Particular attention should be paid to the co-ordination of trades to ensure that chord and web restraints are provided in accordance with the truss design parameters and the top and bottom chords are braced in accordance with AS4440 and the manufacturers specifications

It is recommended that regular inspection of the roof trusses, particularly at high load areas such as girder trusses, are conducted by a suitably qualified person as per Workplace Services Hazard Alert, July 2002.

The assessment of the timber framing has been based on the understanding that the timber to be used for all structural elements has a minimum joint strength group of J4 or JD4.

The footings have not been designed to take into account the effect of planted trees located within a distance less than their zone of influence from the building whether they are on or outside of the allotment. If clarification is required, refer to the footing construction report or seek advice from the engineer.

The owners attention should be drawn to Appendix B of AS 2870 'Performance Requirements and Foundation Maintenance'

Particular care should be exercised to ensure that the plumbing and perimeter paving is installed in accordance with the requirements of AS 2870 and engineers details.

The articulation or control joints in the masonry walls shall be installed in accordance with the Site Investigation and Footing Construction Report

All glazing shall be glazed in accordance with AS1288- 2006, including safety glass for full height windows, glazed doors, side panels and windows located over or adjacent to a bath/shower

Energy efficiency construction requirements include -:

- Roof and wall Insulation must comply with AS/NZS 4859.1 and be installed in accordance with BCA Clause 3.12.1.1
- If windows do not comply with AS2047 a seal will be required to be fitted to each edge of openable windows serving a conditioned space or habitable room
- Door and window seals to be foam, rubber compressible strip, fibrous seal or the like

The buildings domestic services must have the following energy efficiency features -:

- heating and cooling ductwork thermally insulated in accordance with BCA Table 3.12.5.2 and installed and sealed in accordance with BCA Clause 3.12.5.3

The hot water system/heated water service must be designed and installed in accordance with the Waterworks Act 1932, the Waterworks Regulations 1996 and Directions issued by SA Water Corp and Part SA 3.12.5.6 of Volume 2 of the BCA which prescribes minimum energy efficiency levels

Artificial Lighting

Illumination power density shall not exceed 5 W/m² for Class 1, 4 W/m² for attached verandah or balcony and 3W/m² for Class 10

Artificial lighting around building perimeter to be controlled by daylight sensor or have average light source efficacy of not less than 40 Lumens/W s

Flexible ductwork used for the transfer of products initiating from a heat source that contains a flame must comply with the fire hazard properties set out in AS4254.

Heating appliances shall be installed in accordance with Part 3.7.3 of the BCA.

This report does not imply compliance with the Electricity Act, 1996 as amended or the regulations thereunder (including Regulations prescribed for purposes of Section 86) or the Occupational Health, Safety & Welfare Act 1986 or the regulations thereunder. It is the responsibility of the applicant, owner and the person erecting the building to ensure compliance with same.

Complying Development pursuant to schedule 4 2B of the Development Regulations 2008.

Conditions of Consent:

Please see the attached copy of your private Certifiers consent for conditions of consent.

BUILDING RULES CONSENT

GRANTED

Conditions of Consent:

Please refer to the attached copy of your Private Certifier's Consent for Conditions of Consent.
(If applicable)

NOTES:

General:

- (1) Before commencing any site works, a temporary vehicular access to the property for machinery, delivery of building materials and general vehicles should be provided. In the case where no driveway invert exists, the kerb can be saw cut and removed at the intended location for the new driveway invert to provide the necessary temporary access. In addition, if a paved Council footpath exists, this should also be removed in alignment with the removed section of kerb. The applicant should also take note of other information provided regarding use of, damage to and construction on Council owned land.

- (2) In assessing your application it has been determined that it is likely that you will be undertaking work that may affect the stability of adjoining land. Section 60 of the Development Act 1993 and Regulation 75 of the Development Regulations 2008, prescribe that your neighbour has a right to be notified by you 28 days prior to you undertaking that work. This is to enable your neighbour to obtain a report for which you are obliged to pay, that specifies any work that is required to be undertaken to ensure the stability of your neighbour's property is maintained during and following the undertaking of the work you propose. You should make yourself aware of these requirements before proceeding.

Mandatory Notifications

Regulation 74 of the Development Regulations 2008 requires the licensed building work contractor or the owner builder responsible for the work to notify Council prior to the commencement or completion of mandatory stages of construction (a notice specifying the mandatory notification stages is attached herein). Further to the requirement to notify, the licensed building work contractor or the owner builder must, no later than 1 business day after the completion of the roof framing, provide the completed Minister's Roof Framing Checklist to Council*. The Minister's Roof Framing Checklist must be completed and signed by a registered building work supervisor who has received specialised training. Failure to comply with the requirements to notify and/or provide the Minister's Roof Framing Checklist could result in a fine of \$500.00 or prosecution.

**(a copy of the Minister's Roof Framing Checklist can be found on the City of Marion website www.marion.sa.gov.au).*

Appeal Rights:

- (1) If you are not satisfied with this decision, there may be a right of appeal to you. Applicants have the right to appeal against a refusal or the imposition of any conditions or requirements on any consent issued, unless the application was for a non-complying kind of development. An appeal by an applicant must be lodged within two (2) months of receiving notice of the decision. Where Category Three public notification was involved, persons who lodged written representations during the formal consultation period, have the right to appeal against any decision made on that application. An appeal by a third party must be lodged within fifteen (15) business days of the date of the decision. All appeals are lodged with the Environment, Resources and Development Court, Sir Samuel Way Building, Victoria Square, Adelaide, telephone: 8204 0300.

Approval Timeframes:

(1) The proposed development must:

- be substantially commenced within twelve (12) months from the date full Development Approval is granted; and
- be completed within three (3) years of full Development Approval being granted, noting that the operative date of any consent or approval is subject to any appeal (where applicable) being finally determined.

NO WORK CAN COMMENCE ON THIS DEVELOPMENT UNLESS A DEVELOPMENT APPROVAL HAS BEEN OBTAINED. IF ONE OR MORE CONSENTS HAVE BEEN GRANTED ON THIS NOTIFICATION FORM, YOU MUST NOT START ANY SITE WORKS OR BUILDING WORK OR CHANGE THE USE OF THE LAND UNTIL YOU HAVE ALSO RECEIVED NOTIFICATION OF A DEVELOPMENT APPROVAL.

BUILDING RULES CONSENT CONDITIONS

- 1 The stormwater shall be disposed of in such a manner that it does not flow or discharge onto land of adjoining owners or lie against any building or create unsanitary conditions.
- 2 The development shall be undertaken in accordance with the Council approved Development Plan Consent plans and conditions subject only to the variations specified in the Schedule 22A – Certificate of Consistency.

BUILDING RULES CONSENT NOTES

- 1 Notification by the owner must be given to the Council at the following stages:
 - one business day's notice of the intended commencement of building work on the site, and
 - one business days notice of the completion of the building work.

Council may have a requirement to be notified at other stages of construction. It is strongly recommended you read all documentation from Council to ensure you do not commit an offence under the Development Act 1993.
- 2 All members of the community have a general environmental duty under the Environment Protection Act. The Environment Protection Agency Code of Practice for the Building and Construction Industry provides benchmarks of best practice and contains certain mandatory provisions for preventing contaminants entering the stormwater system.
- 3 Where a domestic building work contract > \$12,000 is to be entered into with a builder or if the owner is a licensed builder, the owner must, pursuant to Regulation 21 of the Development Regulations 1993, ensure that a Certificate of Indemnity Insurance is lodged with **Professional Building Services Australia** on or before three business day's of the commencement of the building work.
- 4 This Consent does not, and shall not, be constructed to signify Professional Building Services Australia's approval of any building or structure which is, or may be subject to the provisions of the Electricity Trust of South Australia's Regulations controlling building or development within prescribed distances of overhead power supply lines, or alternatively, underground power supply lines. For further information contact the Electricity Trust of South Australia.
- 5 The building owner who proposes to carry out any excavation or filling of a nature prescribed in Regulation 75 of the Development Regulations 1993 shall serve upon the adjoining owner a notice of his intention to perform that work as required by Section 60 of the Development Act. That is any work close to or on a boundary and likely to affect any adjoining land or building.

- B. WOODEND PARK PTY LTD is the registered proprietor of an estate in fee simple in the whole of the land comprised in Certificate of Title Register Book:

VOLUME 4080 FOLIO 944
VOLUME 4371 FOLIO 605
VOLUME 4371 FOLIO 606
VOLUME 4384 FOLIO 344

- C. The Owners have jointly applied to the Council for approval pursuant to the Development Act 1993 (hereinafter called "the Act") to divide the land referred to in Recitals A and B which land is contiguous and together constitutes a single development parcel (hereinafter called "the land").

- D. By development application numbered 100/D035/96 the Owners have sought approval to divide the land into 13 lots (hereinafter called "Superlots" 1 to 13 respectively) the boundaries of which are related to the relevant land use zone boundaries designated in the Council Development Plan. A reduced copy of the plan of division the subject of this application is annexed hereto (hereinafter called "the Proposal Plan").

- E. By a second development application numbered 100/D036/96 the Owners have sought approval to divide Superlots 1, 2, 4, 5 and 7 (hereinafter called "the Residential Superlots"), which correspond with the Residential (Worthing Mine) Zone, into a total of 1317 residential allotments (hereinafter called "the residential lots").

- F. The parties acknowledge that certain kinds of development within the Residential (Worthing Mine) Zone are listed as a complying kind of development pursuant to the provisions of the Council Development Plan.

- G. The parties wish to manage the quality and design of development on the residential lots, where such development is complying development pursuant to the Act, by introducing further conditions which must be satisfied by such development in addition to the conditions applicable to complying kinds of development.
- H. Pursuant to the provisions of Section 57(2) of the Act and generally the Owners have offered to enter into this Deed with the Council relating to the management preservation and conservation of the Residential Superlots.
- I. This is intended to be an interim measure until improved management of the residential lots can be effected by a Plan Amendment Report prepared by the Council pursuant to the Act to amend the provisions of the Council Development Plan relating to complying development within the Residential (Worthing Mine) Zone.
- J. No other persons have a legal interest in the Residential Superlots.

NOW THIS DEED WITNESSETH as follows:

1. Interpretation

- 1.1 The parties acknowledge that the matters hereinbefore recited are true and accurate and agree that they shall form part of the terms of this Deed.
- 1.2 In the interpretation of this Deed unless the context shall otherwise require or admit:
- (a) Words and phrases used in this Deed which are defined in the Act shall have the meanings ascribed to them by that Act.
 - (b) References to any statute or subordinate legislation shall include all statutes and subordinate legislation amending consolidating or replacing the statute or subordinate legislation referred to.
 - (c) The term "the Owners" where the Owners include a company includes its successors, assigns and transferees and where the Owners include a person, includes his heirs, executors, administrators and transferees and where the Owners consists of more than one person or company the term includes each and every one or more of such persons or companies jointly and each of them severally and their respective successors, assigns, heirs, executors, administrators and transferees of the companies or persons being registered or entitled to be registered as the proprietor of an estate in fee simple in the Residential Superlots subject however to such encumbrances, liens and interests as are registered and notified by memoranda endorsed on the Title thereof.
 - (d) The term "person" shall include a corporate body.

- (e) Words importing the singular number or plural number shall be deemed to include the plural number and the singular number respectively.
 - (f) Words importing any gender shall include every gender.
 - (g) Where two or more persons are bound hereunder to observe or perform any obligation or agreement whether express or implied then they shall be bound jointly and each of them severally.
 - (h) Any clause headings or marginal notes are for reference purposes only and shall not be resorted to in the interpretation of this Deed.
- 1.3 If any provision of this Deed shall be found by a court of competent jurisdiction to be invalid or unenforceable in law THEN and in such case the parties hereby request and direct such court to sever such provision from this Deed.
- 1.4 The law governing the interpretation and implementation of the provisions of this Deed shall be the law of South Australia.

2. The Owner's Obligations

- 2.1 This Deed is conditional upon the Registrar General depositing a plan of division in the Lands Titles Registration Office pursuant to Section 223 I e of the Real Property Act 1886 in essentially the same form as the Proposal Plan and the Council granting an effective development approval for the creation of the residential lots.
- 2.2 In respect of a residential lot, the Owners shall not undertake development of a kind described as complying in the Council Development Plan without the prior written consent of the Council unless such development meets the following criteria, where relevant:
- 2.2.1 To ensure a reasonable separation between dwellings and to minimise the potential for overshadowing of adjacent dwellings, the following boundary set-backs apply:
- (a) single-storey development, or single-storey components of a development, should be located no less than one metre from side (unless located on the boundary) and rear boundaries; and
 - (b) two-storey development, or two-storey components of a development, should be located no less than three metres from side and rear boundaries.
- 2.2.2 To allow maximum access to solar energy the minimum set-back of a dwelling from its northern boundary should be three metres, unless the building form does not permit a three metre set-back (as may be the case for semi-detached dwellings), in which case, a courtyard capable of containing a rectangle of six metres

by four metres should be provided immediately adjacent to that northern boundary.

A northern boundary is defined as any site boundary having a bearing of between 45 degrees and 135 degrees of true north and located at the northern extremity of the site.

2.2.3 Up to 15 metres of side walls of single-storey dwellings may be located on one side boundary of a site, provided that:

- (a) the side wall is not higher than 3.5 metres above natural ground level;
- (b) the gradient of the natural surface level of the site is less than 1-in-10 in any direction; and
- (c) the set-back to the other side boundary is a minimum of one metre.

2.2.4 Open-sided carports, verandahs and pergolas which require development approval may be located on one side boundary of a site, provided that the structure does not exceed three metres in height on the boundary.

2.2.5 Development should be designed to relate to the slope of the land, so that:

- (a) the amount of cutting and filling of the natural ground profile is minimised; and
- (b) the need for retaining walls is avoided, or the height of retaining walls is minimised.

2.2.6 Development should be designed to minimise energy use for heating, cooling and lighting through the application of an appropriate range of the following techniques:

- (a) use of windows to maximise absorption of heat from the sun in winter on north and east building surfaces;
- (b) use of deciduous trees, pergolas, verandahs and awnings to allow penetration of heat from the sun in winter yet provide shade in summer;
- (c) avoidance of large windows on south and west facing building surfaces, other than in buildings which can take advantage of views; and
- (d) avoidance of overshadowing of windows on the north and east faces of neighbouring buildings, and surfaces used for the collection of solar energy.

2.2.7 Development should be sited so that sunlight is available to the northern facade of the development and any adjacent existing

dwelling for at least two hours between 9:00am and 3:00pm on 21 June.

2.2.8 Development should be designed so that as much stormwater as possible is retained on the development site through the application of an appropriate range of the following techniques:

- (a) the collection of roof run-off in rainwater tanks;
- (b) the use of rainwater for domestic purposes;
- (c) the direction of roof run-off onto garden areas; and
- (d) the design of paved areas so that stormwater is directed onto garden areas.

2.2.9 Each dwelling should have provision for car parking on the site of the dwelling at the rate of not less than 0.5 spaces per bedroom (or room that may be used as a bedroom) plus 0.5 spaces per dwelling. Where a second car park is provided in a tandem arrangement on a driveway, then the driveway gradient should be not more than 1-in-10.

2.2.10 The frontage of a dwelling, other than the driveway area should be landscaped to the reasonable satisfaction of the Council within 6 months of the occupation of the dwelling. Landscaping may comprise a combination of vegetation and paved surfaces, however paving should not constitute more than half of the area between the site frontage and the forward-most building alignment of a dwelling. Driveway width should not exceed 50 percent of the frontage of the site.

2.2.11 Development should seek to preserve and maintain existing mature vegetation, and in particular, vegetation which provides a screening effect between sites shall only be removed or cut back to facilitate the establishment of buildings that otherwise comply with the terms of this Deed..

3. Miscellaneous Provisions

3.1 The Owners shall not grant any lease or licence easement or other right of any nature whatsoever which may give any person the right to possession or control or entry upon the Residential Superlots or residential lots upon any terms whatsoever unless such grant shall be expressed in writing and shall contain as an essential term thereof a covenant by the grantee not to do or omit to do or suffer or permit any other person to do or omit to do any act matter or thing upon the Residential Superlots or residential lots which would constitute a breach of the provisions of this Deed if such act matter or thing were done or omitted to be done by the Owners.

- 3.2 The Council and any employee or agent of the Council authorised by the Council may at any reasonable time enter the Residential Superlots or residential lots for the purpose of:
- 3.2.1 inspecting the Residential Superlots or residential lots and any building or structure thereupon;
 - 3.2.2 exercising any other powers of the Council under this Deed or pursuant to law.
- 3.3 If the Owners are in breach of any provision of this Deed, the Council may, by notice in writing serviced on the Owners, specify the nature of the breach and require the Owners to remedy the breach within such time as may be nominated by the Council in the notice (being not less than twenty eight (28) days from the date of service of the notice) and if the Owners fail so to remedy the breach, the Council or its servants or agents may carry out the requirements of the notice and in doing so may enter and perform any necessary works upon the Residential Superlots or residential lots and recover any costs thereby incurred from the Owners.
- 3.4 If in a notice referred to in Clause 3.3 hereon the Council requires the removal of a building or structure from the Residential Superlots or residential lots the Council and its servants or agents are hereby authorised and empowered by the Owners to enter and remove the building or structure from the Residential Superlots or residential lots and to dispose of it in any manner determined by the Council provided that if the building or structure shall have any monetary value then the Council shall use its best endeavours to realise that monetary value and shall after the disposal account to the Owners and pay to them the realised value less all expenses incurred.
- 3.5 This Deed may not be varied except by a supplementary deed signed by the Council and the Owners.
- 3.6 The Council may waive compliance by the Owners with the whole or any part of the obligations on the Owners' part herein contained provided that no such waiver shall be effective unless expressed in writing and signed by the Council.
- 3.7 This Deed contains the whole agreement between the parties in respect of the matters referred to herein.
- 3.8 Notice shall for the purposes of this Deed be properly served on the Owners if it is:
- 3.8.1 posted to the Owners' last address known to the Council; or
 - 3.8.2 affixed in a prominent position on the relevant Residential Superlots or residential lots.
- 3.9 The Council may delegate any of its powers under this Deed to any person pursuant to Division V of Part III of the Local Government Act 1934 or pursuant to the Act.

- 3.10 The Owner hereby indemnifies the Council and agrees to keep it forever indemnified in respect of the whole of its costs and expenses of and incidental to the negotiation preparation stamping and registration of this Deed and the implementation including the enforcement of its terms.
- 3.11 The requirements of this Deed are at all times to be construed as additional to the requirements of the Development Act, 1993 and any other legislation affecting the subject land.
- 3.12 Each party shall do and execute all such acts documents and things as shall be necessary to ensure that this Deed is noted against the Certificates of Title for the Residential Superlots pursuant to the provisions of Section 57(5) of the Development Act 1993 in priority to any other registrable interest in the subject land save and except for the estate and interest of the Owner therein.
- 3.13 If the development approvals proposed to be granted by the Council with respect to the Proposal Plan or the residential lots cease to operate pursuant to Section 40(2) of the Act or are cancelled pursuant to Section 43 of the Act then in either event the Council shall upon the request of the Owner and at the cost of the Owner in all things execute and lodge with the Registrar-General an application to rescind this Deed.
- 3.14 The Council shall use its best endeavours to expeditiously prepare a Plan Amendment Report (or vary an existing Plan Amendment Report) to amend the provisions of the Council Development Plan relating to complying development within the Residential (Worthing Mine) Zone.
- 3.15 After authorisation of the Plan Amendment Report referred to in Clause 3.14 hereof the Council shall upon the request of the Owners and at the cost of the Owners in all things execute and lodge with the Registrar General an application to rescind this Deed.

IN WITNESS whereof the parties hereto have executed this Deed.

PAYMENT REMITTANCE ADVICE

No payment is required on this Certificate

Please Note:

Please check that the property details shown on this Certificate are correct for the land being sold.

The amount payable on this Certificate is accurate as at the date of issue.

This Certificate is only valid for the financial year shown.

If the change of ownership will occur in the following financial year, you must obtain another Certificate after 30 June.

Payment should be made as part of the settlement process.

The amount payable on this Certificate must be paid in full even if only a portion of the subject land is being sold. RevenueSA cannot apportion the ESL.

If the amount payable is not paid in full, the purchaser may become liable for all of the outstanding ESL as at the date of settlement.

The owner of the land as at 12:01am on 1 July in the financial year of this Certificate will remain liable for any additional ESL accrued before the date of this Certificate, even if the amount payable on this Certificate has been paid.

Provision of this Certificate does not relieve the land owner of their responsibility to pay their Notice of ESL Assessment by the due date.

If the owner of the subject land is receiving an ESL pensioner concession but was not living in the property as their principal place of residence as at 12:01am on 1 July of the current financial year, or is now deceased, you must contact RevenueSA prior to settlement.

I refer to your enquiry forwarded to Land Services SA - Section 7 Unit (Receipt No.2550531) concerning the above property.

This site is not affected by the Metropolitan Adelaide Road Widening Plan or any current proposal of this department.

The property abuts a section of Lonsdale Road that was proclaimed as controlled access road on 5 March 1981 pursuant to Part 2A of the *Highways Act 1926*. Departmental records show that there is no proclaimed or permitted means of access by which persons and vehicles may directly enter or leave the controlled access road from/to this site. All access is to be gained via Brooklyn Drive.

Yours sincerely

Please check that the property details shown on this Certificate are correct for the land being sold.

This Certificate is only valid for the financial year shown.

If the change of ownership will occur in the following financial year, you must obtain another Certificate after 30 June.

Payment should be made as part of the settlement process.

The amount payable on this Certificate must be paid in full even if only a portion of the subject land is being sold. RevenueSA cannot apportion the land tax.

If the amount payable is not paid in full on or before the due date shown on this Certificate, the purchaser will not be released from liability of the whole amount of the land tax outstanding as at the date of settlement.

The owner of the land as at midnight on 30 June immediately before the financial year of this Certificate will remain liable for any additional land tax accrued before the date of this Certificate, even if the amount payable on this Certificate has been paid.

The amount payable on this Certificate is the land tax payable at the date of issue. However, land tax for a particular financial year may be reassessed at any time, changing the amount payable.

Should a reassessment occur after this Certificate has been paid in full, the purchaser will remain indemnified and will not be responsible for payment of the new land tax payable amount. The owner at the beginning of the relevant financial year will be responsible for payment of any additional land tax payable.

Should a reassessment occur after this Certificate has been issued but not paid in full, the purchaser will not be indemnified and may become responsible for payment of the new land tax payable amount.

Should a reassessment occur after this Certificate has been paid in full and the Certificate is subsequently updated, the purchaser will not be indemnified and may become responsible for payment of the new land tax payable amount.

Provision of this Certificate does not relieve the land owner of their responsibility to pay their Notice of Land Tax Assessment by the due date.

Does the council hold details of any development approvals relating to:

- a) commercial or industrial activity at the land; or
- b) a change in the use of the land or part of the land (within the meaning of the repealed Development Act 1993 or the Planning, Development and Infrastructure Act 2016)?

No

Description of the nature of the development(s) approved:

Note—

The question relates to information that the council for the area in which the land is situated may hold. If the council answers "YES" to the question, it will provide a description of the nature of each development approved in respect of the land. The purchaser may then obtain further details from the council (on payment of any fee fixed by the council). However, it is expected that the ability to supply further details will vary considerably between councils.

A "YES" answer to paragraph (a) of the question may indicate that a potentially contaminating activity has taken place at the land (see sections 103C and 103H of the Environment Protection Act 1993) and that assessments or remediation of the land may be required at some future time.

It should be noted that—

- *the approval of development by a council does not necessarily mean that the development has taken place;*
- *the council will not necessarily be able to provide a complete history of all such development that has taken place at the land.*

The information herein is provided pursuant to the Council's obligations under Section 7 of the Land Business (Sales Conveyancing) Act 1994.

Only that information which is required to be provided has been given and that information should not be taken as a representation as to whether or not any other charges or encumbrances affect the subject land.

I, Kellie Parker, Administration Officer of the City of Marion certify that the information provided in these responses is correct.

Is there a tree or stand of trees declared in Part 10 of the Planning and Design Code (the Code) to be a significant tree or trees on the land? (Note: there may be regulated and/or significant trees on the land that are not listed in the Code - see below).

NO

Under the Planning, Development and Infrastructure Act 2016 (the Act), a tree may be declared as a significant tree in the Code, or it may be declared as a significant or regulated tree by the Planning, Development and Infrastructure (General) Regulations 2017. Under the Act, protections exist for trees declared to be significant and/or regulated trees. Further information regarding protected trees can be found on the PlanSA website: <https://plan.sa.gov.au/>

Open the Online Planning and Design Code to browse the full Code and Part 10 - Significant Trees for more information.
