Schedule

Preliminary

To the purchaser:

The purpose of a statement under section 7 of the *Land and Business (Sale and Conveyancing) Act 1994* is to put you on notice of certain particulars concerning the land to be acquired. If you intend to carry out building work on the land, change the use of the land or divide the land, you should make further inquiries to determine whether this will be permitted. For example, building work may not be permitted on land not connected to a sewerage system or common drainage scheme if the land is near a watercourse, dam, bore or the River Murray and Lakes.

The *Aboriginal Heritage Act 1988* protects any Aboriginal site or object on the land. Details of any such site or object may be sought from the "traditional owners" as defined in that Act.

If you desire additional information, it is up to you to make further inquiries as appropriate.

Instructions to the vendor for completing this statement:

☐ means the Part, Division, particulars or item may not be applicable.

If it is applicable, ensure the box is ticked and complete the Part, Division, particulars or item.

If it is not applicable, ensure the box is empty or strike out the Part, Division, particulars or item. Alternatively, the Part, Division, particulars or item may be omitted, but not in the case of an item or heading in the table of particulars in Division 1 of the Schedule that is required by the instructions at the head of that table to be retained as part of this statement.

* means strike out or omit the option that is not applicable.

All questions must be answered with a YES or NO (inserted in the place indicated by a rectangle or square brackets below or to the side of the question).

If there is insufficient space to provide any particulars required, continue on attachments.

- (j) details of records, held by the former South Australian Waste Management Commission under the repealed *Waste Management Act 1987*, of waste (within the meaning of that Act) having been deposited on the land between 1 January 1983 and 30 April 1995?
NO

Note—

These questions relate to details required to be recorded by the EPA in the public register. If the EPA answers "YES" to any of the questions, the purchaser may obtain those details from the public register on payment of the prescribed fee.

5—Pollution and site contamination on the land—other details held by EPA

Does the EPA hold any of the following details in relation to the land or part of the land:

- (a) a copy of a report known as a "Health Commission Report" prepared by or on behalf of the South Australian Health Commission (under the repealed *South Australian Health Commission Act 1976*)?
NO

NO
- (c) details (which may include a report of an environmental assessment) relevant to an agreement entered into with the EPA relating to an approved voluntary site remediation proposal under section 103K of the *Environment Protection Act 1993*?
NO

These questions relate to details that the EPA may hold. If the EPA answers "YES" to any of the questions, the purchaser may obtain those details from the EPA (on payment of any fee fixed by the EPA).

6—Further information held by councils

Does the council hold details of any development approvals relating to —

- (a) commercial or industrial activity at the land; or
- (b) a change in the use of the land or part of the land (within the meaning of the *Development Act 1993* or the *Planning, Development and Infrastructure Act 2016*)?

YES

Note—

The question relates to information that the council for the area in which the land is situated may hold. If the council answers "YES" to the question, it will provide a description of the nature of each development approved in respect of the land. The purchaser may then obtain further details from the council (on payment of any fee fixed by the council). However, it is expected that the ability to supply further details will vary considerably between councils.

A "YES" answer to paragraph (a) of the question may indicate that a **potentially contaminating activity** has taken place at the land (see sections 103C and 103H of the *Environment Protection Act 1993*) and that assessments or remediation of the land may be required at some future time.

It should be noted that—

- the approval of development by a council does not necessarily mean that the development has taken place;
- the council will not necessarily be able to provide a complete history of all such development that has taken place at the land.

7—Further information for purchasers

Note—

The purchaser is advised that other matters under the *Environment Protection Act 1993* (that is, matters other than those referred to in this Statement) that may be relevant to the purchaser's further enquiries may also be recorded in the public register. These include:

- details relating to environmental authorisations such as applications, applicants, locations of activities, conditions, suspension, cancellation or surrender of authorisations, disqualifications, testing requirements and test results;
- details relating to activities undertaken on the land under licences or other environmental authorisations no longer in force;
- written warnings relating to alleged contraventions of the *Environment Protection Act 1993*;
- details of prosecutions and other enforcement action;
- details of civil proceedings;
- other details prescribed under the *Environment Protection Act 1993* (see section 109(3)(l)).

Details of these matters may be obtained from the public register on payment to the EPA of the prescribed fee.

If—

- an environment performance agreement, environment protection order, clean-up order, clean-up authorisation, site contamination assessment order or site remediation order has been registered on the certificate of title for the land; or
- a notice of declaration of special management area in relation to the land has been gazetted; or
- a notation has been made on the certificate of title for the land that a site contamination audit report has been prepared in respect of the land; or
- a notice of prohibition or restriction on taking water affected by site contamination in relation to the land has been gazetted,

it will be noted in the items under the heading *Environment Protection Act 1993* under the Table of Particulars in this Statement. Details of any registered documents may be obtained from the Lands Titles Registration Office.
